## **Introduction**

The process of Improvement Planning in Kentucky is used as the means of determining how schools and districts will plan to ensure that students reach proficiency and beyond by 2015. The process focuses school and district improvement efforts on student needs by bringing together all stakeholders to plan for improvement, by focusing planning efforts on priority needs and closing achievement gaps between subgroups of students, by building upon school and district capacity for high quality planning, and by making connections between the funds that flow into the district and the priority needs in schools. Your school's plans for improvement must be based on careful and honest analysis of data, address all content areas, and clearly address gaps in student achievement.

## **Introduction**

Every school has its own story to tell. The context in which teaching and learning takes place influences the processes and procedures by which the school makes decisions around curriculum, instruction, and assessment. The context also impacts the way a school stays faithful to its vision. Many factors contribute to the overall narrative such as an identification of stakeholders, a description of stakeholder engagement, the trends and issues affecting the school, and the kinds of programs and services that a school implements to support student learning.

The purpose of the Executive Summary (ES) is to provide a school with an opportunity to describe in narrative form the strengths and challenges it encounters. By doing so, the public and members of the school community will have a more complete picture of how the school perceives itself and the process of self-reflection for continuous improvement. This summary is structured for the school to reflect on how it provides teaching and learning on a day to day basis.

## **Description of the School**

**Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?**

Marion County High School is a small town school in Lebanon, KY, located in the heart of Kentucky's Bluegrass Region. The City of Lebanon and Marion County have been tabbed the "Manufacturing Center of Central Kentucky" and voted the "Most Industry Friendly Community in Kentucky," which is a credit to the leadership and citizens of the community. To make any development effort a success it takes cooperation from a number of different entities including the school system and our city and county government. The existence of two distilleries (including Maker's Mark) has provided the community a history rich in tradition. Two cooperages and restaurants with bourbon themes highlight the impact the industry has had on the county and make Marion County an ideal stop on the "Bourbon Trail." As a city and county that has been recognized for its manufacturing and economic stability, Lebanon also supports the small businesses that line downtown through its Main Street Program. Local industry provides graduates employment opportunities other small towns cannot and many who attend post-secondary training outside the community tend to return to Marion County to settle and raise their family.

MCHS is the only high school serving the almost 20,000 residents of Marion County. Over the past three years the school has had an enrollment of between 930 to 960 students in grades 9-12. Our free and reduced population averages between 45 to 55%, with fluctuations depending on our local economy, and the school generally serves a minority population of between 10 to 15%. Our teaching staff consists of 47 certified staff and 31 classified staff members. Together, they strive to help students reach proficiency by providing a quality education through a variety of programs, services, and activities. Ninety five percent of the certified staff at MCHS have earned a Master's degree in their teaching area and the school employs six National Board Certified staff members. Implementation of the Teacher Professional Growth and Effectiveness System focusing on Danielson's Framework for Teaching has been a point of emphasis for the school and district starting in the 2014-15 school year. This year we have spent time implementing the strategies from the Fundamental Five, with an emphasis on framing lessons, work in the power zone, and allowing for frequent, small group, purposeful talk among students.

The school culture at Marion County High School continues to support high levels of student involvement, including many clubs, athletic and civic programs, as well as a community supported Schools to Work programs that help students develop skills necessary to compete in a global economy. College and Career Readiness benchmarks continue to be an ongoing focus across the curriculum at Marion County High School as we want all students to have options following graduation.

## School's Purpose

**Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school embodies its purpose through its program offerings and expectations for students.**

### Vision

Marion County High School, in partnership with the community, will ensure that every student graduates with the skills to be successful.

### Mission Statement:

Every KNIGHT, Every Day!

### Theme for 2015-16

Team Work Makes the Dream Work.

### Belief Statements:

- Graduating each student with a post secondary plan.
- Reaching out to students, staff, families, and community to form relationships.
- Ongoing and continuous learning for the school community.
- Working on rigorous and relevant lessons to increase student engagement.
- Implementing positive transitions.
- Nurturing a safe school environment.
- Guaranteeing a viable curriculum.

Our goal is to provide the skills for Marion County students to excel in and contribute to the leadership, workforce, citizenship, and character of Marion County. The first step to achieving this goal is preparing ALL Marion County High School students to be College and/or Career Ready upon their graduation. The expectation is that students can perform on grade level in terms of literacy and numeracy skills. Students access a rigorous curriculum and are encouraged to accelerate their learning by taking honors level and Advanced Placement courses to prepare them for life after high school. MCHS hopes to increase the number of coop and work force experiences for students at local businesses and industry through our partnership with the Area Technology Center.

## **Notable Achievements and Areas of Improvement**

**Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.**

Marion County High School is proud of the accomplishments of its students, staff, and faculty as we strive to provide educational opportunities in academics, leadership, citizenship, and character. MCHS is a significant part of the community's identity and recognizes that recent success is truly a joint venture between parents, students, and the community which has contributed to the following accomplishments:

2015 - Marion County High School ranked at the 94th percentile for all state high schools, earning a Distinguished ranking for the 2014-15 school year.

2014-15 - Principal participation in the National Institute for School Leadership.

ACT Success- the Class of 2016 earned the following scores on the state administration of the ACT in March 2015:

English	19.1
Math	19.1
Reading	19.4
Science	19.8
Composite	19.4 (right at the state average)

2014- AP School District Honor Roll, one of only 14 districts in the state of Ky

2015-16 Beta Club School of Distinction and current State President

2014 - MCHS Academic Team won Regional Governor's Cup competition in 2014, sending Quick Recall and Future Problem Solving teams to State Governor's Cup Competition, along with several students qualifying for written assessment at the State level.

2013-14 - Select MCHS Art students earned multiple awards for both two-dimensional and three-dimensional artworks exhibited at the Caveland Regional Art Show. First place Regional winners exhibited artwork at State Competition, earning the 2nd place award in the Painting category.

2014 & 2015 - Future Farmers of America- State Gold Emblem chapter and National 3-Star Rating, placing MCHS FFA in the top 14 chapters in the state of Ky

2010 - 2014 - 20th District Volleyball Champions

2004 - 2014 - 20th District Girls Basketball Champions

Several students represent MCHS at the state and national level annually in the areas of Career and Technical Education and BETA, as well as All-State Chorus.

Areas of improvement include increasing the number of students demonstrating proficiency in Math and Reading, improving the attendance  
SY 2015-2016

and graduation rates, and working to ensure all students are college and/or career ready upon graduating.

**Goal 1: The proficiency percent for Reading will increase from 57.4 in 2015 to 75.5 in 2019; Math: from 27.8 in 2015 to 67 in 2019; Science: from 50.8 in 2015 to 63.7 in 2019; Social Studies: from 58.3 in 2015 to 74.7 in 2019.**

**Measurable Objective 1:**

61% of All Students will demonstrate a proficiency based on EOC scores in Reading by 05/20/2016 as measured by End of Course results for English 2; 48% of all student will demonstrate proficiency on the Algebra 2 EOC; 53% of all students will demonstrate proficiency on the Biology EOC exam; 63% of all students will demonstrate proficiency on U.S. History EOC. .

**Strategy 1:**

Professional Learning Communities (PLC) - PLC's will meet weekly to review pacing guide implementation, plan standards-based lessons, design formative and summative assessments (including common assessments), and review student performance data. Instructional decisions will be based on data with professional learning embedded throughout the year.

Category: Professional Learning & Support

Research Cited: DuFour

Activity - Data Analysis with Interventions	Activity Type	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
PLC teams will analyze data from common assessments throughout the year to monitor student learning. School-wide grade level data from End of Course exams, PLAN, ACT, KOSSA, and other state or national exams will be used to identify students for targeted interventions using research-based practices. Freshmen will continue to take the PLAN test with data analyzed to provide targeted interventions. Juniors will take the practice ACT in September to identify areas for intervention and the ACT in March. Seniors will take the ASVAB and those not meeting ACT benchmarks will receive remediation and then take the ACT Compass and KYOTE. Activity - Instructional Coaches	Activity Type	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Instructional Coaches will work with English, Math, and Science teachers to monitor horizontal and vertical curriculum documents, implement instruction, and review assessment data. ICs will work with teachers during PLC time and provide feedback regarding best instructional practices.	Academic Support Program	08/06/2014	05/22/2015	\$0	District Funding	Curriculum Coaches, Central Office, Principal

Activity - Extended School Day Services	Activity Type	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
ESS offered for students before and after school. Pull-out tutoring will be utilized for those students can only be served during the traditional school day.	Academic Support Program	08/06/2014	12/19/2014	\$5000	General Fund	Teachers, Administration

### Strategy 3:

Academic Time for Interventions - Once a week during the first semester there will be a 40 minute intervention period to allow teachers to work with students in a small group setting. Teachers will choose 10 to 12 students to provide interventions or remediation on a specific skill or content. Teachers will be given priority for a designated week to ensure access to students most in need of interventions with core classes given greater priority (especially Math and English). Students not claimed for interventions will report to the designated class period for that week for enrichment or review.

---	--------------------------	------------	------------	-----	---------------------	----------------------

**Goal 2: Increase the average combined Math and Reading proficiency rating for Marion County High School Gap students to 65.6 in May of 2019 from 32.6 in 2015.**

**Measurable Objective 1:**

47% of Black or African-American, White, Economically Disadvantaged, Hispanic or Latino, Students with Disabilities and English Learners students will demonstrate a proficiency of the standards in Mathematics by 05/20/2016 as measured by the percentage of students scoring as proficient or distinguished on state assessments; 51% of Gap students will demonstrate proficiency in Reading; 44.9% of Gap students will demonstrate proficiency in combined Math and Reading..

**Strategy 1:**

Professional Development - Teachers will participate in Professional Development to learn strategies that will increase student engagement. Learning will include instructional strategies and student activities that promote student involvement in the learning process along with application of learned content.

Category: Integrated Methods for Learning

Activity - Green River Regional Educational Cooperative	Activity Type	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible

**Strategy 2:**

Rigor For All Students - MCHS will provide access to rigorous standards-based instruction for all students through inclusion, collaboration/co-teaching, research-based strategies, staff training, and monitoring/feedback.

Category: Continuous Improvement

Activity - Monitoring / Feedback	Activity Type	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
The ECE teachers will meet monthly to focus on ECE program improvement, student learning and data-analysis. Additionally, ECE Staff will maintain a Student Data Profile that will include student progress monitoring data and analysis to ensure students are receiving appropriate, targeted interventions and support as needed. Gap students will be identified and progress monitored throughout the school year.	Academic Support Program	09/02/2014	05/22/2015	\$0	No Funding Required	Regular and Special Education Teachers
Activity - Inclusion	Activity Type	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
All students with special needs will be included in the regular classroom to the fullest extent allowed by the IEP. This will help to ensure that all students have access to a rigorous curriculum that is congruent to KCAS and Program of Studies. To support this work, students with special needs will be scheduled first into regular education classrooms and will be the focal point of discussions as the schedule is created.	Policy and Process	08/06/2014	05/22/2015	\$0	No Funding Required	Principal, Counselors, Special Education and Regular Ed. Teachers
Activity - Research-Based Strategies	Activity Type	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Administration will work to ensure that all teachers have access to sufficient instructional resources by investigating individual needs and providing and supporting the implementation of research-based programs/curriculum resources (i.e. Hattie, Marzano, Bloom, Kagan, etc.) that assist in strengthening instruction in core academic areas, and that are valid, reliable, and supported by data for targeting groups of students.	Professional Learning	08/05/2015	05/20/2016	\$2000	General Fund	Principals, Teachers, Central Office Personnel
Activity - Priority Scheduling	Activity Type	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
ECE students will be scheduled first with consideration given to those teachers who will be working in a co-teaching setting.	Policy and Process	01/04/2016	05/20/2016	\$0	No Funding Required	Counselors, ECE staff

**Strategy 3:**

Data Driven Interventions - Freshmen and sophomores identified as being in the bottom 10th percentile based on MAP scores for Reading and Math will be pulled weekly from electives for interventions. Those students will spend a minimum of 30 minutes completing on-line intervention in their area of need.

Category: Continuous Improvement

## **KDE Needs Assessment**

## **Introduction**

The purpose of the School Needs Assessment is to use data and information to prioritize allocation of resources and activities.

DRAFT

## **Data Analysis**

**What question(s) are you trying to answer with the data and information provided to you? What does the data/information tell you?  
What does the data/information not tell you?**

The importance of using data to make decisions cannot be understated in the educational setting. Analyzing student performance data on state and national assessments (PLAN, ACT, KOSSA, ASVAB, etc.) allows us to provide targeted interventions to meet individual student needs. Teachers use common assessments on a regular basis to monitor student learning, identify standards that have not been mastered and determine how to best reteach critical concepts. Data from formative assessments is used to inform daily instructional practices and to clarify student misconceptions.

Freshmen are taking the MAP assessment to get a better understanding of where they stand academically when they enter high school and to provide a comparison of knowledge gained throughout the year. This year sophomores are MAP testing to monitor growth throughout the year and gain an idea of their percentile ranking on a national assessment. Juniors and sophomores take a practice ACT with data analyzed using Triumph College Admissions to identify areas of weakness in Math, Reading, English, and Science. This data allows students to be grouped for Academic Time.

K-Prep scores increased significantly in Science, from 27.3 to 50.8, due in part to a focus on standards-based grading. The percent of students scoring proficient in Science and Social Studies remains above the state average as our Reading scores. Math continues to be the greatest area of concern with only 27.8% of students scoring proficient. Data also shows that females are consistently outscoring males in most all areas and while many Gap subgroups are above the state average, our ECE population falls well below the state average in most areas.

Administration has conducted surveys regarding professional development and student discipline, along with reviewing data from the Tell Survey, to better meet teacher needs. Tell survey results are significantly below state averages in several areas, making Climate and Culture a focus area for the school year. While the review of data is critical it does not reflect the importance of relationships within the school. Teachers must feel valued and supported by administration, while students have to know we care for them as individuals and are working for their best interests.

It is the ability to look at the cold hard facts (data), identify the personalities who will bring about desired change, and the allocation of resources required to allow change to happen that will determine our success

## **Areas of Strengths**

**What were the areas of strength you noted? What actions are you implementing to sustain the areas of strength? What is there cause to celebrate?**

Marion County High School KPREP accountability index increased from 71.6 in 2013-14, to 76.6 in 2014-15, earning MCHS a Distinguished rating for the first time in school history and moving it from the 74th to 94th percentile. The school made gains in several areas of accountability, but most notably in Science. College and Career Readiness for all students remains an emphasis school-wide which contributed to an increase from 53.4 in 2013 to 71 in 2014 to 96.1 in 2015.

ACT scores remain at or above the state average but have seen limited increases in the past 3 years. The faculty has made it a priority to expose students to ACT test taking strategies along with designing assessments in the same format and rigor of state and national exams. A focus on standards-based instruction and exposing students to assessments in the same format and rigor of KOSSA Exams resulted in an increase in the pass rate for most CTE areas.

DRAFT

## **Opportunities for Improvement**

### **What were areas in need of improvement? What plans are you making to improve the areas of need?**

Marion County High School earned a Distinguished rating, however Math and Reading are areas of improvement. In Math only 27.8% of students demonstrated proficiency on the Algebra 2 End of Course Exam. In Reading 57.4 scored proficient or distinguished. The percent of MCHS students demonstrating proficiency for the combined Math and Reading was 42.6, below the state average of 47.5%.

The low percentage of Gap students demonstrating remains an area of concern, particularly our ECE population. MCHS gap students score below the state average in Math but have made gains in other areas, however not all subgroups have enjoyed equal success.

The following plans are being implemented to improve the areas discussed -

Academic time for targeted interventions

Data collection to identify students for interventions (TCA, MAP, etc.)

PLCs to align curriculum, plan instruction, and review student performance data using Grade Cam

Best Practices regarding instruction - standards-based, lesson plan feedback, walk throughs, observations

Increased monitoring of student progress - common assessments, progress toward CCR status, etc.

Professional Development - school wide training along with content specific strategies

## **Conclusion**

**Reflect on your answers provided in the previous sections. What are your next steps in addressing areas of concern?**

While MCHS has made progress in recent years we realize we have several areas in which grow. We must continue to be intentional about the content being taught (standard-based), the instructional strategies used (best practices), and how student learning is assessed (both formatively and summatively). We have the students, staff, and resources in place to foster success but need to continue to identify and meet individual student needs to ensure they become college or career ready.

# **KDE Compliance and Accountability - Schools**

DRAFT

## **Introduction**

The process of Improvement Planning in Kentucky is used as the means of determining how schools and districts will plan to ensure that students reach proficiency and beyond by 2015. The process focuses school and district improvement efforts on student needs by bringing together all stakeholders to plan for improvement, by focusing planning efforts on priority needs and closing achievement gaps between subgroups of students, by building upon school and district capacity for high quality planning, and by making connections between the funds that flow into the district and the priority needs in schools.

Your school's plans for improvement must be based on careful and honest analysis of data, address all content areas, and clearly address gaps in student achievement.

DRAFT

## Planning and Accountability Requirements

The school has identified specific strategies to address areas for improvement identified in the TELLKY Survey results.

**Goal 1:**

The proficiency percent for Reading will increase from 57.4 in 2015 to 75.5 in 2019; Math: from 27.8 in 2015 to 67 in 2019; Science: from 50.8 in 2015 to 63.7 in 2019; Social Studies: from 58.3 in 2015 to 74.7 in 2019.

**Measurable Objective 1:**

61% of All Students will demonstrate a proficiency based on EOC scores in Reading by 05/20/2016 as measured by End of Course results for English 2; 48% of all student will demonstrate proficiency on the Algebra 2 EOC; 53% of all students will demonstrate proficiency on the Biology EOC exam; 63% of all students will demonstrate proficiency on U.S. History EOC. .

**Strategy1:**

Professional Learning Communities (PLC) - PLC's will meet weekly to review pacing guide implementation, plan standards-based lessons, design formative and summative assessments (including common assessments), and review student performance data. Instructional decisions will be based on data with professional learning embedded throughout the year.

## The Missing Piece

DRAFT

## **Introduction**

This report provides a comprehensive response to the six objectives of The Missing Piece set for the by the Commissioner's Parent Advisory Council (CPAC). This diagnostic uses performance measurement and progress, as well as relationship building, resources and support to build capacity within schools and districts measure parent involvement and the desired outcome being made. Use the links below to navigate the diagnostic content and respond to the questions.

DRAFT

## **Stakeholders**

**What stakeholders (name and title) did you engage for the purpose of completing the Missing Piece diagnostic?**

Results from the Tell Survey and other perceptions surveys were used to identify components of culture and climate that are addressed in the Improvement Plan along with academic performance data. Committees were charged with finding student and parent representatives to provide input and participate in the decision making process. Parent discussions during SBDM council meetings, open house, registration, along with informal conversations during athletics or other events hosted at MCHS.

## Reflection

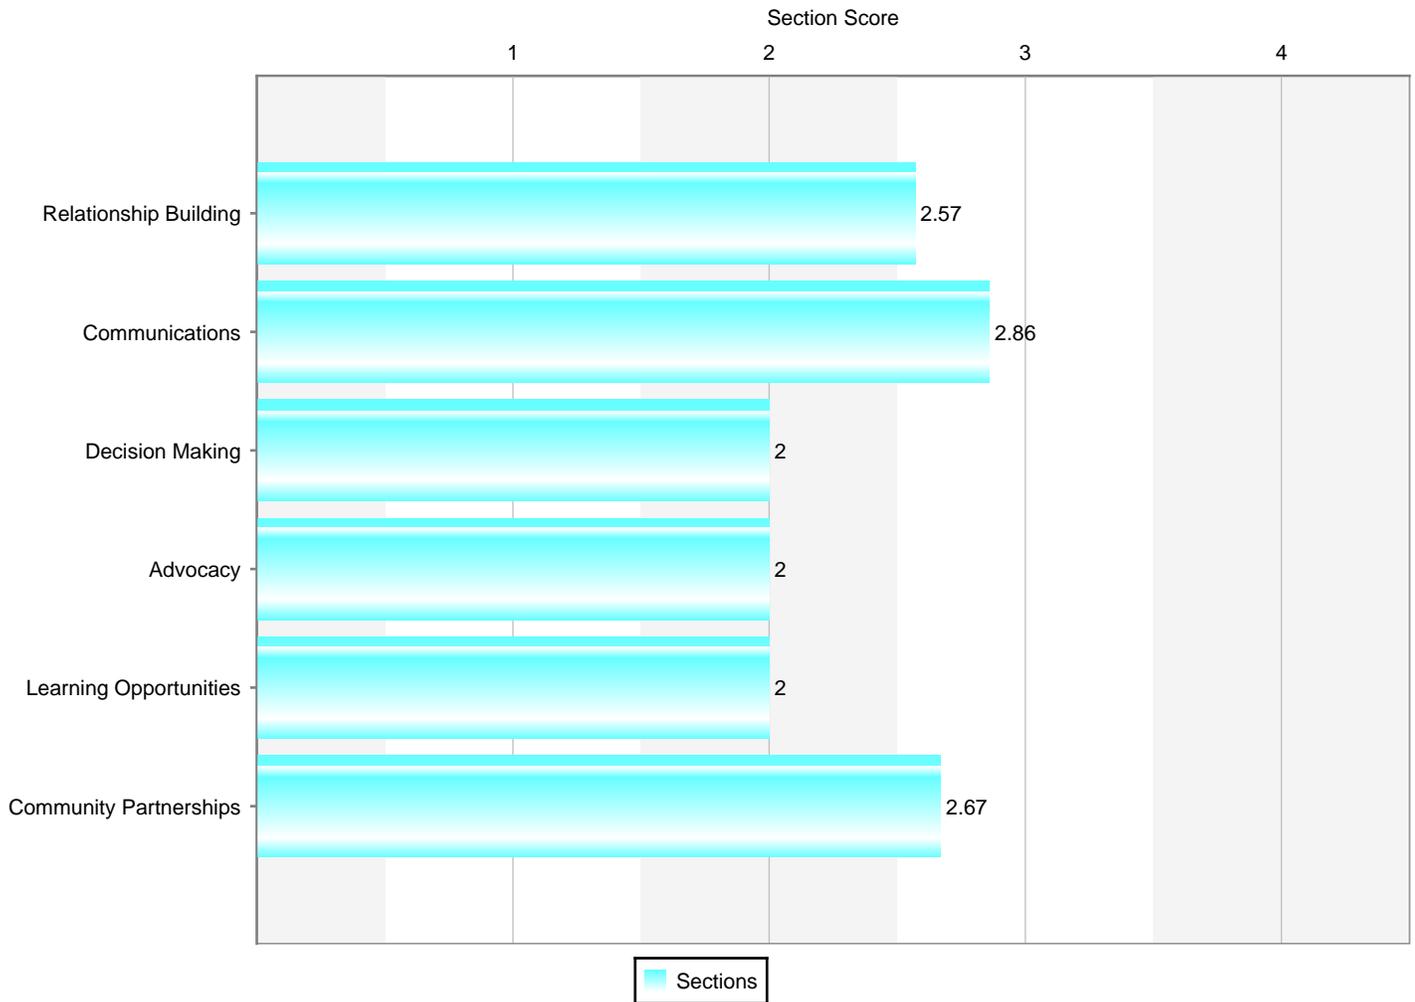

**Reflect upon your responses to each of the Missing Piece objectives.**

MCHS does a good job of sharing information when requested but does not initiate conversations with parents regarding student needs. Parents are welcomed into the building at MCHS but programs need to be implemented that will increase the understanding and involvement of all parents in the learning process.

### Improvement Planning Process

**Describe the process used to engage a variety of stakeholders in the development of the institution's improvement plan. Include information on how stakeholders were selected and informed of their roles, and how meetings were scheduled to accommodate them.**

Input from staff was obtained during Team Leadership meetings, weekly PLC discussions, Faculty Meetings, along with results from perception surveys.

**Describe the representations from stakeholder groups that participated in the development of the improvement plan and their responsibilities in this process.**

All stakeholders were encouraged to provide input during Leadership meetings, PLCs, and Faculty meetings leading up the creation of the improvement plan.

**Explain how the final improvement plan was communicated to all stakeholders, and the method and frequency in which stakeholders receive information on its progress.**

Via the school and district website. Approval will be announced in SBDM minutes and via plan on a page posted in the school lobby. Implementation updates will provided periodically at SBDM meetings and with faculty.

# **School Safety Report**

DRAFT

## **Introduction**

In response to recent tragic events in our nation's schools, during the 2013 legislative session the Kentucky General Assembly took action, through the passage of Senate Bill 8/House Bill 354, to assure that our schools are safer places for students and staff to work and learn. Among other things, SB8/HB354 required changes to emergency plan requirements, the development of school safety practices, and additional severe weather, lockdown and earthquake drills. The bill also required local school district superintendents to verify to the Kentucky Department of Education that all schools in the district are in compliance with these requirements. This diagnostic is the means by which this reporting is accomplished.

## Equitable Access Diagnostic

## **Introduction**

As part of No Child Left Behind (NCLB) each state is required to develop strategies to ensure that poor and minority children are not taught at higher rates than other children by inexperienced, unqualified, or out-of-field teachers. The results of this effort became a national push to ensure all teachers were highly qualified (HQT); meaning each teacher holds the appropriate certification for the content and/or grade level for which they are assigned. National data show that poor and minority continue to be taught by inexperienced, unqualified, or out-of-field teachers. As a result, in 2014, the United States Department of Education (USDOE) required states to develop equity plans and use evidence based strategies to address this issue. The focus of the plan is to move away from the concept of “highly qualified” to “high effective”.

**Needs Assessment**

Label	Assurance	Response	Comment	Attachment
1.1	Has a review of the data has been conducted to determine barriers to achieve equitable access to effective educators within the school?	Yes	Class size reports, teacher retention reports, school achievement data, TELL survey reports, equity tab on the school and district report cards, Highly qualified reports, PGES effectiveness data, free and reduced lunch percentages for schools, percentage of student sub-groups in each school, and any other relevant data have been examined to help find areas of strength and improvements. The title that we have given to our improvement efforts is entitled: Challenging expectations for children living in poverty.	

**What are the barriers identified?**

- I. Teacher Prep Programs (lack of courses on diverse learning and cultural awareness; lack of experiences; limited applicant pools)
- II. Student Efficacy (student conduct; over-representation in certain sub-groups within discipline data; lack of knowledge on how to communicate and help students living in poverty to set goals and to build grit; lack of opportunities for students to have multiple opportunities to display content mastery)
- III. Perceptions of Parental Involvement (teacher lack of understanding; lack of adjustments to our behaviors when data informs us that parent involvement is disproportional; lack of resources and partnerships with appropriate agencies to provide additional student supports;
- IV. Working Conditions (physical school environment does not always reflect and display the best qualities of our students and community and use it to strive for excellence-lack of display of student quality work; more professional learning opportunities; lack of new facilities (appropriate space); lack of guidance and support from leadership-communications; teacher assignments aligned to strengths of individual teacher)

**What sources of data were used to determine the barriers?**

Class size reports, teacher retention reports, school achievement data, TELL survey reports, equity tab on the school and district report cards, Highly qualified reports, PGES effectiveness data, free and reduced lunch percentages for schools, percentage of student sub-groups in each school, and any other relevant data have been examined to help find areas of strength and improvements.

**What are the root causes of those identified barriers?**

- I. Teacher Prep Programs
- II. Student Efficacy
- III. Perceptions of Parental Involvement
- IV. Working Conditions

**What does the Professional Growth and Effectiveness System data say about the effectiveness of teachers in the school?**

27% Exemplary

61.5% Accomplished

11.5% Developing

## Equitable Access Strategies

**Placement: Describe school policies or procedures that address the assignment of students to ensure low income and minority students are not assigned to inexperienced, ineffective or out-of-field teachers more often than their peers who are not identified as low income or minority students.**

Each school's SBDM council has a student assignment policy that are reviewed each year

**Placement: How is data used to make student assignment decisions to ensure low income, minority, Limited English Proficient and Exceptional Children and Youth are not assigned to inexperienced, ineffective or out-of-field teachers more often than their peers?**

Principals along with collaboration of their staff assign students to classrooms based upon multiple sources of data.

**Recruitment and Retention: How does the school analyze student level data to design targeted recruitment of effective and diverse teachers?**

Marion County Schools only had 6 teachers leave the district. We have started an exit survey to help us to identify ways that we can continue to retain our teachers. Partnerships have been strengthened with surrounding Universities and their teacher prep programs to increase observation and student teaching experiences. Many of our leaders participate in the exit interview processes at these sites. Currently supplemental benefits are being examined to ensure that the best price for benefits is being secured so that take-home pay is maximized. Salary analysis for all job categories is on-going to ensure that we are comparable and competitive.

**Recruitment and Retention: How does the school recruit teachers who are effective in implementing practices that are targeted to support the diverse learning needs of minority students, low income students, Limited English Proficient and Exceptional Children and Youth?**

We have developed a partnership with Campbellsville Universities world language department in which international students work in our classrooms to support students and teachers.

**Recruitment and Retention: How does the school retain effective teachers? Identify any incentives.**

Professional development academies are offered monthly to differentiate the learning opportunities and are based upon teacher requests.

**Professional Learning: Identify supports, including mentoring and/or induction, provided to meet the needs of first year, inexperienced and out-of-field teachers.**

New teacher induction program is provided to all new teachers in the district. Instructional coaches provide on-going support as needed throughout the school year. Monthly PD academies are help that address different topics by request for all teachers but especially new teachers.

**Professional Learning: Utilizing PGES data, how are the professional learning needs of teachers with an effectiveness rating below accomplished addressed?**

Principals along with instructional coaches are monitoring student learning data along with frequent visits to the classroom to observe. Coaching feedback is a priority of the district and professional learning is on-going for these groups so that we are constantly learning on ways to support and help teachers be more effective in the classroom.

**Working Conditions: How are TELL Kentucky results being addressed to increase recruitment, retention and professional learning needs of staff?**

TELL survey results are analyzed district-wide to help determine learning topics for leadership meetings along with other needs needed throughout the district or for specific leaders. In addition these reports help us to decide upon different learning opportunities to offer for our teachers. Leadership, Teaching & Learning, High Expectations and Communication is the bases of all of our work.
