

Regional School Programs

"Forward Thinking, Future Focused"

Regional School Programs Future Enhancement Plan

1. *Develop a career, technical, and vocational partnership to extend student success beyond high school.*

Goal Implementation Date: Initial Implementation-2016-2017 school year

- February 1st, 2016 meeting to begin planning and implementation for 2016-2017 with Enzweiler Trade School in conjunction with Northern Kentucky Home Builders Association
- Create partnerships to "fund" scholarships for students to participate in program at no out of pocket cost to the student or home district
- Work with KDE and home districts to create a dual credit option for students participating in extension program

2. *Create partnerships with local agencies to enhance and extend mental health and wraparound counseling services for students.*

Goal Implementation Date: TBD

- Work with local agencies to enhance mental health services already in place
- Work in collaboration with local agencies and families to increase involvement and access to community and wraparound services for students and families outside of school

3. *Create a partnership with Northern Kentucky University (and other regional and state colleges and universities) to increase involvement in teacher education candidates and make Regional School Programs a "model school" for teacher education candidates in special education tract programs.*

Goal Implementation Date: Begin implementation in 2016-2017 school year

- Work with pre-service teacher education candidates to provide hands on learning and teaching opportunities prior to clinical experience or first year teaching
- Create alternative teacher and principal mentor program/roundtable group for regional discussion and increased achievement
- Provide location for observation hours, clinical experience, mentorship, and other resources for pre-service and new teachers.

4. *Improve technological access and resource for greater student achievement*

Goal Implementation Date: 2016-2017

- Reserve funding for purchase of up to 50 devices for student, staff, and district use
- Explore a lease to buy option for students
- Provide students greater access and expanded access to online curriculum
- Goal of one to one student to device implementation by 2017-2018

5. *Become a Kentucky Alternative School of Distinction*

Goal Implementation Date: 2015-2016 and annually beyond that

- Demonstrate best practices through application and site visits to be recognized as a Kentucky Alternative School of Distinction
