

Human Resources Restructure

Function Analysis and Organization for Maximum Effectiveness &
Efficiency

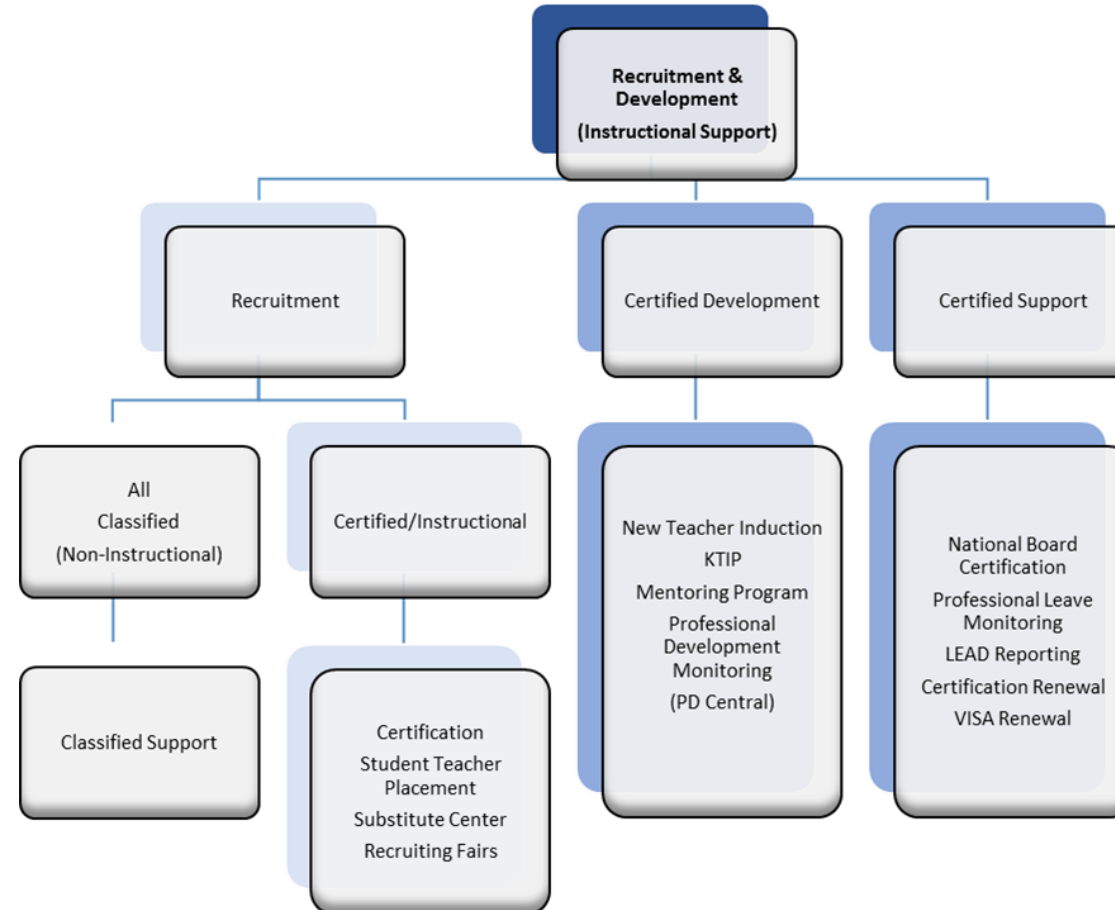

Current Challenges

- HR Staff members are not assigned appropriately or equitably for optimal effectiveness.
- Some HR Staff members are overburdened with duties and tasks that distract from providing quality service to our schools and departments.
- HR processing is not well defined or standardized, and is often inconsistent.
- Redundancy of tasks across the HR department.
- Process, organizational structures, and services are assigned across multiple departments in the district and confuse our district employees about who to call and where to go for service.

Human Resources Function Chart

Recruitment & Development

Recruitment Update

Annual Minority Hires Snapshot

Responsive to Research & Data

- Recruitment & Retention Self-Assessment
- Connecting with counterparts in Council of Great City Schools
