**APPROVAL OF INSTRUCTIONAL SCHOOL FEES**  
**FOR 2016-17**

**BACKGROUND:**

Instructional fees are to be monitored at the school level to ensure that the district is keeping a current record of board approved fees for students. All instructional fees will be in compliance with Board policy 08.232 Instructional Resources which state that *fees for rental or purchase of instructional resources may be charged*; and Board policy 09.15 Student Fees which reports that *all student fees and charges shall be established by the Board. Approved fees shall remain in place until modified or removed by Board resolution. Pupils may be assessed for activities as specified in administrative procedures. However, mandatory waiver of fees for qualifying students shall be accomplished in compliance with applicable statutory and regulatory requirements.*

**RATIONALE:**

Approval of school fees will help to ensure consistency district-wide with school fees, as well as to establish an expense limit.

**PROPOSAL:**

**INSTRUCTIONAL FEES IN ELEMENTARY**

Establish a maximum dollar amount of \$120 per elementary student (primary/intermediate) for all fees (field trips, supplies, etc) for the school year. A spreadsheet will be kept for each teacher/teaching team to monitor requested fees so that at any time there is a current record of fees to date.

Any Extended Field Trips are exempt from the maximum amount.

School supplies requested from parents for students should be for individual student consumable use only. Principals should review all supply lists before distributing to parents. Supply lists should be posted on school web sites by July 1. Teachers need to avoid requiring items that are classroom consumables such as cleaning supplies, copy paper, ink/printing cartridges, etc.
