IMPORTANT INFORMATION

(Applies only to credit accounts.)

FINANCE CHARGES begin to accrue immediately whenever a loan is made to you. There is no period during which a FINANCE CHARGE would not accrue. FINANCE CHARGES are computed by multiplying the average daily balance during the billing cycle times the number of days in the billing cycle and then applying the daily periodic rate to the product. The daily periodic rate is equivalent to the ANNUAL PERCENTAGE RATE.

The average daily balance is computed by taking the beginning balance of your account each day and adding any new advances and subtracting any payments or credits and any unpaid FINANCE CHARGES. If you have a variable rate account, the daily periodic rate is subject to change. The average daily balance is the sum of all daily balances during the billing period divided by the number of days in the billing period.
