Action/Discussion Item: Approve the Agreement between Mountain Comprehensive Care Center (MCCC) and the Floyd County Schools for the provision of school-based therapy services during the 2016-17 school year.

Applicable Statutes or Regulations: Relates to KRS 158.440 and 160.290

Background and major Policy Implications: In the past, mental health services to students may have been limited due to difficulties that families experience with transporting children to appointments at MCCC. Students who had transportation and for whom appointments were scheduled during the school day were absent from school for a day or a portion thereof. Providing therapy services on-site address both issues. Availability of MCCC staff members has also increased awareness of services available to students (and family members) that may have a need for mental health services. The number of sites served is directly related to availability of qualified MCCC therapist.

Fiscal Budgetary Impact: There will be no direct cost to Floyd County Schools associated with this agreement. Therapeutic services will be billed to each child's medical card, insurance, or to any grant monies available at MCCC. Therapists are provided a room in which to work at each school served.

Alternatives: None proposed.

Recommended Action: Approval of the Memorandum of Agreement between the Floyd County Board of Education and Mountain Comprehensive Care for school-based therapy during the 2016-17 school year.
