Vision Statement

The Floyd County Athletic programs will provide equitable opportunities for our students to participate in organized sports at a variety of levels. Our athletic programs will encourage and empower students to develop their leadership, sportsmanship, and interpersonal skills, and foster a positive attitude and healthy lifestyle in a setting that creates a sense of school community.

Mission Statement

The Mission of Floyd County Athletics is to advance the overall vision of Floyd County Schools by providing athletic programs for all students that support the academic, physical, social, and personal development of student-athletes.

Administration

The Superintendent assisted by the District Director of Athletics shall administer the athletic policies and procedures as approved by the Floyd County Board of Education. The District Athletic Director shall be a member of the Title IX committee for each district high school.

The last revision to the Athletic Handbook by the Floyd County Board of Education was on ~~June 22, 2011~~ May 6, 2016.

Section I Philosophy & Coaching Ethics

Philosophy

The Athletics Program in the Floyd County Public Schools ensures that the local schools have athletics available to all students who wish to participate under the guidelines set forth by the Floyd County Board of Education.

Ethics

Coaches' Code of Ethics (Floyd County Schools/National Federation of State High School Associations)

The function of a coach is to properly educate students through participation in interscholastic competition. The interscholastic program is designed to enhance academic achievement and should never interfere with opportunities for academic success. All children should be treated as though they were the coaches' own, and their welfare shall be the uppermost at all times. In recognition of this, the following guidelines for coaches have been adopted by the National Federation Interscholastic Coaches Association (NFICA) Board of Directors:

1. The coach must be aware that he or she has a tremendous influence, either good or bad, in the education of the student athlete and, thus, shall never place the value of winning above the value of instilling the highest desirable ideals of character.
2. The coach must constantly uphold the honor and dignity of the profession. In all personal contact with the student athlete, officials, athletic directors, school administrators, the state high school athletic association, the media, and the public, the coach shall strive to set an example of the highest ethical and moral conduct.
3. The coach shall take an active role in the prevention of drug, alcohol, and tobacco abuse, and under no circumstances should authorize their use.
4. The coach shall promote the entire interscholastic program of the school and direct his or her program in harmony with the total school program.
5. The coach shall be thoroughly acquainted with the contest rules and is responsible for their interpretation to team members. The spirit and letter of rules should be regarded as mutual agreements. The coach shall not try to seek an advantage by circumvention of the spirit or letter of the rules.
6. Coaches shall actively use their influence to enhance sportsmanship by their spectators, working closely with cheerleaders, pep club sponsors, booster clubs and administrators.
7. Contest officials shall have the respect and support of the coach. The coach shall not indulge in conduct that will incite players or spectators against the officials. Public criticism of officials or players is unethical.
8. Before and after contests, rival coaches should meet and exchange friendly greetings to set the correct tone for the event.
9. A coach shall not exert pressure on faculty members to give student athletes special consideration.
10. It is unethical for coaches to scout opponents by any means other than those adopted by the league and/or state high school athletic association.
11. District coaches and volunteers will adhere at all times to precautions and procedures that relate to heat related illness and injury.

*** District coaches are expected to adhere to this code at all times as well as Floyd County Schools.**

 17. If the student athlete is under penalty as a result of disciplinary or academic reasons that student will remain ineligible for the remaining academic school year in that sport at all schools in the Floyd County School District.
 18. The Floyd County District will enforce KHSAA Bylaw 9 at the middle school level of competition. This will restrict any student that is listed on the Floyd County Participation roster in that sport activity regardless of grade level.

Students enrolled below grade nine (9) playing "up" to the high school level

For many years, legislation (KRS 156.070(2)) (c) has barred any local Board of Education (including the Kentucky Board of Education and its designee to manage interscholastic athletics, the Kentucky High School Athletic Association) from barring participation at the high school level by 7th and 8th grade students, unless those restrictions involved soccer and football. Students not yet enrolled in grade seven (7) were not directly regulated as far as the allowances for participation, except at the local level.

Students in grades seven (7) and eight (8) will continue to be allowed to compete provided they are not in conflict with any other KHSAA bylaw.

During the middle school Task Force, compelling testimony was given that from a sports medicine and health perspective, the co-mingling of students below grade six (6) and high school students in an athletic environment including locker rooms, travel, etc., is not in the younger student's best interest. Research showed a compelling probability of bullying situations, differences in maturity and physical development, and a pattern of successful positive practices in other states where segregation of the two age groups was best for the students involved. While it was recognized that there is the occasional elite athlete capable of physically competing with high school students, this factor was not compelling when factored against the reasons to stop such play. In addition, it was noted that play at the high school level is expected to be school and education based, not necessarily community based, and the positives gained from a restriction outweighed the negatives.

- Beginning with the 2014-2015 school year, students below grade seven (7) will not be permitted to play at any level (freshman, junior varsity or varsity) of high school athletics.
- Students who have participated at the high school level (during any period defined by Bylaw 25) prior to the conclusion of the 2013-2014 school year will be "grandfathered" in to the regulation, and allowed to continue to compete at the high school level provided such participation is not in conflict with any other bylaws.

~~This phase-in will be completed by the start of the 2016-2017 school year at which point no student below grade seven (7) will have a participation opportunity at the high school level.~~
~~During 2014-2015 and 2015-2016, only those students who have participated on the high school level (freshman, junior varsity or varsity) prior to the conclusion of the 2013-2014 school year will be permitted to continue such participation.~~

Effective with the 2015-2016 school year, policies regarding the participation of repeating students at the levels of play below high school interscholastic athletics shall be implemented pursuant to 702 KAR 7:065 as follows:

Beginning with the 2015-2016 school year and thereafter, require that no student enrolled initially in grade (5) through grade (8) during the 2015-2016 school year or thereafter who is repeating a grade for any reason be eligible to compete in interscholastic competition involving students enrolled in grades six (6) through eight (8) while repeating a grade;

Beginning with the 2015-2016 school year, require that a student who turns:

Fifteen (15) years of age prior to August 1 of the current school year shall not be eligible for interscholastic athletics in Kentucky in competition against students exclusively enrolled in grades eight (8) and below;

Fourteen (14) years of age prior to August 1 of the current school year shall not be eligible for interscholastic athletics in Kentucky in competition against students exclusively enrolled in grades seven (7) and below; and

Thirteen (13) years of age prior to August 1 of the current school year shall not be eligible for interscholastic athletics in Kentucky in competition against students exclusively enrolled in grades six (6) and below;
