

Office of Vocational Rehabilitation
Community Work Transition Program
2016-17 Memorandum of Understanding

This Memorandum of Understanding (herein after referred to as the “MOU”) made this 5th day of July, 2016, by and between the **Kentucky Office of Vocational Rehabilitation** at 275 East Main Street, Frankfort, Kentucky 40621 (herein after referred to as “OVR”), and

Boone County Schools

(Name of local education authority)

8330 US 42, Florence, KY 41075

(Address of local education authority)

(herein after referred to as the “LEA”) is done so with the intent of furthering the collaborative efforts between the parties and memorialized in the *State Interagency Cooperative Agreement Between the Kentucky Office of Vocational Rehabilitation and the Kentucky Department of Education* Division of Learning Services, Office of Next-Generation Learners as mandated in the Workforce Innovation and Opportunity Act, Title IV-Amendments to the Rehabilitation Act of 1973, Subtitle B (herein after referred to WIOA) for the benefit of transition age students who are determined eligible (herein after referred to as eligible students) for the Community Work Transition Program (herein after referred to as “CWTP”).

I. Purpose

To define the basic tenets of the CWTP as well as delineate and clarify the rights and responsibilities of OVR and the LEA for jointly implementing and carrying out the CWTP in order to provide pre-employment transition services to students with disabilities as required in WIOA, Section 113 et al, and Section 511 et al.

II. Service Description

The CWTP is designed to assist OVR eligible students who have identified work as a desired post-school outcome and have demonstrated a need for job coaching services, to transition from high school to post school activities, including employment. Students who may be considering work sheltered facilities earning a sub-minimum wage post high school should also participate in CWTP for experiential work opportunities. CWTP utilizes the unique services of a qualified student employment specialist (herein after referred to as the “ES”) to provide individualized pre-employment transition services such as: evaluation, community job exploration, community job development, onsite job training, community job placement assistance, career assessment, community resource awareness and advocacy, and post-school follow-up services. In accordance with WIOA Sec. 113 (a) these services shall only be available to students with disabilities who are

determined eligible for OVR pre-employment transition services as determined by the lead vocational counselor. Each service provided will have a vocational rehabilitation focus and shall not supplant any school based instructional programs deemed the responsibility of the LEA. The goal of this program and all services provided by this program is employment in a competitive, integrated environment. This means (i) work that is performed on a full-time or part-time basis in a typical labor market site where people with disabilities engage in typical daily work patterns with co-workers who do not have disabilities; and where workers with disabilities are not congregated; and (ii) for which an individual is compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals who are not disabled.

The CWTP is designed for eligible students within three (3) years of exiting school who, because of their specific disability and functional limitations require a community based vocational service, including the assistance of an ES in order to obtain and maintain employment. In order to meet the individual needs of the students, \$7,600 of CWTP billable services for the purpose of providing pre-employment transition services are offered. All services provided are individualized and shall be billed accordingly. Each school will submit an application prior to the beginning of each school year.

The breakdown and order of available services to meet the individual needs of the students is:

Initial Planning Meeting:

Once the OVR counselor has determined the student eligible for general OVR services, and writes an Individualized Plan for Employment (IPE) determining their need for the CWTP, a referral for an Initial Planning Meeting is sent. During this meeting, the OVR counselor, the student, school personnel, family members, and ES, will plan unique, vocationally relevant activities such as job exploration, work-based learning experiences, workplace readiness training and self-advocacy training for the upcoming year based on the students initial expressed interests. This meeting will provide guidance to the ES on the goals of the upcoming year of the students program and the expectations of the OVR counselor on how the ES will assist the student in preparing for competitive work. The meeting will clarify the expectation of weekly individualized career exploration and ongoing skills assessment and training. The ES is to work individually, on a weekly basis with the student and record the hours and activities on the monthly progress notes. This meeting will generally be conducted during their sophomore year. OVR will pre-authorize and pay the LEA \$50 for the submitted IPM report summarizing the meeting.

Orientation to Work

Orientation to Work will provide the student with up to 20 hours of exploratory meetings, taking the time to meet the student and discover their goals for the future, visiting places that have meaning to the student. While documenting on monthly progress notes, the ES will assist the student and family in determining a transition path for the end of their secondary schooling and into post school life. OVR will pre-authorize and pay the LEA \$500 for the submitted report summarizing the 20 hours of activities and relevant information gained from meeting with the student. Should 20 hours not occur prior to the end of the school term the amount will be prorated at \$25 per hour for the final report.

Vocational Evaluation & Exploration:

Monthly progress notes shall be submitted to the OVR counselor listing each work based learning experience, job exploration, internships, and/or job shadowing of that month, job site reviews, an ongoing skills assessment, and plans for the upcoming month of goals, activities and strategies the ES will utilize next no later than the fifth of the subsequent month. Although the exact numbers of hours of direct services needed are to be individualized based on the student's unique needs and payments are made solely on an outcome basis, it is anticipated that most students will require an estimated 8-10 hours per month of individualized services. Students who do not need this level of direct services may benefit from other transition services that are not so intensive and their participation in the CWTP may at any time be reevaluated. The ES is to fully document all activities on the Monthly Exploration Report. OVR will pre-authorize and pay the LEA up to \$2000 for these exploration pre-employment transition service activities in a maximum of two term allocations. One term equals 40 hours for \$1000, going from August-Dec and Jan-May. Should 40 hours not occur prior to the end of the term the amount will be prorated at \$25 per hour.

Most students will require ten months of this service. However, fewer may be provided if the goals are met and the student is ready to progress to training services, the next phase of CWTP. No student may receive more than ten months, or over 80 hours, of vocational evaluation & exploration services and training services combined in one school year.

Vocational Assessment:

Utilizing the monthly activities, assessments and guidance, a Vocational Assessment shall be conducted by the ES with the purpose of determining an eligible student's unique strengths, resources, priorities, concerns, abilities, capabilities, and interests as they relate to post school activities and employment in order to determine an appropriate vocational goal and future training needs. Most students will require a full year of monthly assessment activities but the exact number should be tailored to the individual needs of the student. This Assessment should be completed within 30 days of the student's successful completion of vocational evaluation and exploration services and must be submitted prior to the student beginning training services. OVR will pre-authorize and pay the LEA \$900 for the Vocational Assessment report.

Final Year Planning Meeting:

During this meeting strategies and the expectations for the remainder of the CWTP will be discussed defining the steps the ES should take to ensure the student's successful transition to post school activities and future employment success. An amended Individualized Plan for Employment (IPE) may need to be written by the OVR counselor and appropriately signed by the student and/or parent/guardian, for the purpose of more clearly identifying services required to attain a successful transition and employment outcome. This meeting shall include a review of the Vocational Assessment and the ES will be available for input. At this time the team may also discuss any post-secondary education programs that may be

useful or beneficial to attain the chosen vocational goal. OVR will pre-authorize and pay the LEA \$150 for the ES attendance and the submission of the Final Year Planning Report.

It is also during this meeting the decision should be discussed whether or not to begin the process of transitioning the student to a work sheltered facility post high school and begin the paperwork if necessary to ensure a smooth transition process. This should not prohibit the student from continuing to attempt competitive work experiences while in high school if his schedule allows for participation.

Training Services:

For students ready to enter the Training phase, the ES will submit monthly training service reports regarding each of the student's unique community based training activities, work based learning experiences, internships, and/or job shadowing, job site reviews, weekly activities and subsequent plans for the next month's activities based on the vocational goal of the student. No student may receive more than ten months of vocational evaluation & exploration services and training services combined in one school year. The ES is to fully document all activities on the Monthly Training Report. OVR will pre-authorize and pay the LEA up to \$2000 for these training pre-employment transition service activities in a maximum of two term allocations. One term equals 40 hours for \$1000, going from August-Dec and Jan-May. Should 40 hours not occur prior to the end of the term the amount will be prorated at \$25 per hour.

Exit Interview Meeting:

The ES will conduct an Exit Interview meeting with the student and OVR counselor; a subsequent report will be provided to OVR for payment for \$200. This meeting should review all pre-employment transition services provided, related activities and plans for the future beyond high school discussed. Adult service agency providers that address the future unique needs for the individual (for instance, independent living and/or benefits planning) should also be considered for participation during this meeting. This meeting should take place within the final quarter of the student's time in high school.

Job Placement:

A Job Placement Report will be written and submitted for payment of \$800, once the student is working in a position that meets the guidelines and vocational goal of the IPE, the natural supports of the position allow for the ES to phase out of the job site, and the position satisfies the student. The job placement must occur prior to the student exiting high school, with the student employed competitively in an integrated environment, stable and in good standing on the job site. The Report is submitted once the student exits high school and monthly progress notes cannot be submitted for payment once the Job Placement is paid.

Follow-up:

OVR will pay for Follow-up if the ES provides a report at 60 days for \$200. Information will be provided on the student's current post school status, job placement, and the student has remained stable and in good standing with their employer. Should the student not attain employment that meets the guidelines above prior to exiting high school the LEA is

no longer eligible for the Follow-up payment and an Adult Agency provider should be referred for continuing services post high school. Since the requirements for payment are 60 days of successful employment after training services are completed, this goal is not accomplished until after the student exits the school system and into the next fiscal year. **The service must be preauthorized before June 30.**

In summary, upon OVR determining eligibility, the progression for most students is:

May not skip * services
Initial Planning Meeting*
Orientation to Work
Exploration Phase*
Career Assessment *
Final Year Planning Meeting*
Training Phase*
Exit Meeting*
Job Placement
Follow Up

However, any combination of allowable services may be provided upon agreement of the student, guardian as appropriate, counselor and job coach. The OVR counselor has the final decision on any disputes on whether or not a student may continue in CWTP or what services are appropriate.

The OVR counselor will pre-authorize all services determined to be necessary through the CMS payment system as the services are needed. OVR reserves the right to return monthly progress notes prior to payment if more information is requested by the counselor, information provided on activities were deemed not vocationally relevant or appropriate, or determines a lack of sufficient documentation of the weekly activities with the student. Technical assistance should be provided to the schools if this occurs.

For OVR purposes, a successful transition to employment will be considered when the student has maintained a competitive integrated employment placement consistent with the individual's strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice in the most integrated setting at minimum wage or above for a minimum of sixty (60) days after exiting school.

Exceptions or changes to the program may be necessary in extenuating circumstances and may be made if substantial documentation is provided and approval in writing is submitted by the OVR Plan Administrator or Program Director.
