REL APPALACHIA
Regional Educational Laboratory

WEBINAR:
The Kentucky Longitudinal Data System (KLDS): Connecting Education and Outcomes

August 31, 2016
3:30–4:30 p.m. EDT

Webinar

Key Topics

- The capabilities, products, and services available through the Kentucky Center for Education and Workforce Statistics (KCEWS), including the KLDS.
- Perspective of a former Kentucky superintendent on how her district accessed the KLDS in support of a move to full-day kindergarten.
- Ways in which school and district staff can use the KLDS to improve decisionmaking and long-range planning.

Who Should Attend

Data users, including data managers, assessment coordinators, school principals, instructional coaches, assessment coordinators, and others who routinely use data to inform decisionmaking in Kentucky school districts.

Speakers

Mr. Hal Heiner, Secretary, Kentucky Education and Workforce Cabinet

Dr. Kate Akers, Executive Director, KCEWS

Mr. Justin Otto, Marketing Lead and Business Analyst, KCEWS

Dr. Lu Young, CNA Principal Research Scientist; Alliance Researcher, REL Appalachia; and (former) Superintendent, Jessamine County Schools, Nicholasville, KY
