Subject: Board Agenda Item

Hi Vivian, here is something for the next meeting, I'll put copies of the quotes in your box :) Does this make sense???

Technology department is requesting to sub-contract services to Hardy Communications to perform maintenance works on the District's existing network infrastructure. This maintenance work will identify and repair issues such as bad cabling, traffic, etc. that cause network issues. As well as toning/testing all network lines, and providing proper labeling of all network ports. These quotes also include installing and reconfiguring networking equipment at both the high school and bus garage that have been identified as hazardous. The quote for the district wide network clean up is a not to exceed quote, the company is estimating that the total cost will be in the neighborhood of 50-75% of the quoted amount.

Bus garage: \$1542.50

TCCHS-Media Center \$4950.89

District wide clean up/TCMS IDF - \$22,747.96

Dear Ms. Fundora,

This is the quote you requested for the bus depot.

We will install a seven foot stand alone relay rack, a 24 port patch panel, a 12 port rack mount switch, and a rack mount fiber enclosure. Existing wires will be properly managed in the rack. All wires will be tested and labeled accordingly. All parts and labor will fall under a one year warranty.

Installation	857.14
Material	<u>685.36</u>
Total	\$1,542.50

Payment Terms: The balance will be billed net/30 upon completion. Please sign below and fax to 502-964-5081 to accept this proposal.

Dear Ms. Fundora,

This is the quote you requested for the Todd County campus to remove various switches from the floor and install them in a relay rack.

We will provide the installation of (32) new Cat 5e, plenum data wires. We will install 6 wires in the media center at the high school. We will install 24 wires at the academy. We will also install two wires at the middle school. All wires will be tested and labeled accordingly. All labor will be Panduit Certified and will fall under a one year warranty.

Installation	2866.67
Material	<u>2084.23</u>
Total	\$4,950.89

Payment Terms: The balance will be billed net/30 upon completion. Please sign below and fax to 502-964-5081 to accept this proposal.

Dear Ms. Fundora,

This is the quote you requested for the system wide "clean up" project. This is a "not to exceed" quote, meaning we anticipate the total cost of the project to be in the neighborhood of 50-75% of the quoted price. Due to the nature of the scope of work, an exact estimate is not possible. The quoted price you see on this document is the cost of a worst case scenario. Should we finish in less than 160 labor hours, you will be billed time and material for only the hours worked at a rate of \$68 per hour.

At every school in the district we will tone, test, and re-label every wire that is not properly labeled (thousands.) We will clean up all MDFs and IDF's by implementing proper wire management to include vertical and horizontal, two sided wire managers (dozens.) We will reuse your patch cables where possible but, we have included 500 three foot patch cables to correct the shortage of proper length patch cables. We will properly ground every rack in the district to help prevent further damage from lightning. We will properly enclose your fiber optics in rack mounted enclosures in order to protect your considerable investment in backbone cabling.

Existing wires will be properly managed in the rack. All wires will be tested and labeled to industry standards. All parts and labor will fall under a one year warranty.

Middle School

We will install a 24 X 18 swing out rack with a 24 port patch panel, wire management, and fiber rack enclosures in the middle school media center.

Installation	15,285.71
Material	<u>7,462.25</u>
Total	\$22,747.96

Payment Terms: The balance will be billed net/30 upon completion. Please sign below and fax to 502-964-5081 to accept this proposal.
