## Technology for Teachers:

A program implemented into the school system where CADS will provide needed technology so Special Citizens can overcome issues with learning. Year to date, CADS has awarded 147 IPads into Special Education Classrooms in Montgomery and the other 8 counties we serve. Full-time Special Education Teachers within the 9 counties we serve are eligible to apply for the grant during open registration once per calendar year. The grants are scored by a third party representative using a rubric.

## \*\*Please Note that we have made changes to the grant application.\*\*

We are excited to provide a grant application where all documents are in one application. You are encouraged to open up the application and review the short answer/essay questions so you can provide the most through and concise responses. You may want to type the responses in a word document and then copy and paste them into the application. PLEASE note that once you submit your responses you will NOT be able to go back and edit them. You will receive an automated response email upon your submission.

The 2016-2017 grant application is NOW OPEN and will remain so until 11:59 on Thursday, September 29, 2016. Please click on the link below to begin your grant application process.

## **T4T Application**

Please note that you will not be able to save your work if you leave this form or close your browser while working on the application. You may want to copy and paste some of the items into a word document and work on them before submitting this application. You will receive confirmation message once you submit your application. CADS is not responsible for any technological difficulties.
