Describe How you would use a MAC Grant to create a hands-on activity for your class. \*

One area of focus I have been concentrating on is learning stations for middle school students. This learning allows student choice, movement, and gives me more time to work with small groups to individualize student learning and meet their needs. I would love to begin to incorporate ebooks and tablets as part of the reading stations. The technology boom has made electronic devices essential. Six Kindle Fires would make it possible to use ebooks, audio books, and apps like Edmodo, Google Classroom, Class Dojo, Ted TV, and Quizlet.

Note: All activities must take place on school property.

Please provide an itemized budget for your project. \*

Kindle Fire ebooks: \$300

Ebooks/Apps: \$100
