RE: BG-1 16-173, Todd County – Todd County Schools – HVAC Upgrade

Dear Todd County Board of Education,

We received bids on Wednesday October 12th for our Misc. HVAC Projects to be completed in Summer of 2017. We broke out the project to individual schools and low price bid was a combination of Two contractors as follows:

North Todd Elem / South Todd Elem / TC Middle School:
Henry's Plumbing with total bid amount of: \$854,600

Todd County High School:
Stewart Richey Mechanical with bid amount of: \$207,649

Total BG-1 project cost will be: \$1,062,249.00

Our original BG-1 opinion of construction cost was \$980,000, so we are within acceptance range of KDE requirement of +/- 10%.

I do recommend for Todd County Board of Education to accept the bids as presented as we move forward to getting this project into next phase of construction.

I am very thankful and pleased to be working with you and look forward to a successful project.

Thank you so much,

Nami Nahid, PE
