

INAUGURAL SCHOOL ENERGY SUMMIT

The Kentucky School Boards Association and the Kentucky Energy and Environment Cabinet, Department for Energy Development and Independence, are pleased to announce the Inaugural Kentucky School Energy Summit.

KSBA through its School Energy Managers Project, supports a statewide school energy management program. With over \$123 million in cumulative savings in seven years, the strategies have shown success. ALL K-12 and post-secondary schools; public, private, in-state or out-of-state, are invited to participate in this learning opportunity and to network with energy professionals and peers.

General Sessions:

- National and State Energy & Economic Outlook
- Business & School Panel Perspective
- Utility Panel
- School Superintendent Panel

Breakout Sessions:

- Building Controls - Demand Response
- Efficient Building Design
- Energy Management Basics
- Engaging Students
- Facility Tours
- Indoor/Outdoor Lighting Options
- Life Cycle Project Costing
- Operational Savings
- Solar Options
- Utility Rebates
