3. The requirement for mandatory compliance with the District's established standards of conduct, including those that prohibit use of alcohol, drugs and other controlled and prohibited substances;
4. Information about available drug/alcohol counseling programs and available rehabilitation/student assistance programs; and
5. Penalties that may be imposed upon students for violations of this policy.

RANDOM DRUG-TESTING PROGRAM

The random student drug-testing program is based on a health and safety rationale with the purpose of prevention. Drug use encourages truancy, disruptive class behavior, bullying, violence, and interferes with learning making it a threat to not only the drug users but to all students and teachers. We recognize that the unlawful or unauthorized use of drugs seriously impairs the health, safety, education, and future success of all students and adults in the school environment.

This student drug-testing policy shall apply to all individuals in grades 6-12 choosing to participate in the designated extracurricular activities identified in this policy, students who apply for a permit to park on school property and students that "opt-in" the program.

Students participating in the designated extracurricular activities, students that apply for a permit to park on school property, and students that opt-into to the program shall be subject to random drug testing, including an alcohol breathalyzer test, throughout the school year.

Each student who plans to participate in any sport and/or extracurricular activity outlined in this policy and his/her parent or guardian shall be required to sign a written consent for drug testing as a prerequisite to the student's participation in the activity. Likewise, any student applying for a parking permit and his/her parent or guardian shall be required to sign a written consent for drug testing as a prerequisite to receiving parking privileges.

Students not participating in the activities outlined in this policy shall also have the option to "opt-in" the drug testing program and shall be placed in the pool of students that may be randomly selected. Once a student opts-in the program, his/her name shall remain in the pool until written notice is received from the student and signed by his/her parent or guardian requesting that the student be removed from the pool.

STATEMENT OF PURPOSE AND INTENT

1. It is the desire of the Henderson County Board of Education, administration, and staff that every student in Henderson County Schools refrains from using, possessing, or distributing illegal or unauthorized drugs and/or alcohol. The actions of the random drug testing policy relate solely to limiting the opportunity of any student violating of the policy to participate in designated extracurricular activities and/or parking on school property. This policy is intended to supplement and complement all other policies, rules, and regulations of Henderson County Schools regarding possession and/or use of illegal drugs and/or alcohol.
2. Representing Henderson County Schools in athletics and/or school sponsored extracurricular activities and parking on school property are privileges. Accordingly, students participating in school sponsored athletic or extracurricular programs at the middle school or high school level carry a responsibility to themselves, their fellow students, their parents, and their school to set the highest possible examples of conduct, which includes avoiding the use or possession of illegal drugs and alcohol. Likewise, students who are granted the privilege to park on school property carry a responsibility to themselves, their fellow students, their parents and their school to demonstrate personal responsibility and exercise the highest level of safety, which includes avoiding the use of possession of illegal drugs or alcohol.
3. The purpose of this policy is to prevent drug/alcohol use; educate students as to the serious physical, mental, and emotional harm caused by drug use; alert students with possible drug problems to the potential harms of use; prevent injury, illness, and harm as a result of drug use; and maintain in the school district an environment free of drug use and abuse. The Henderson County Board of Education has adopted this policy for all students participating in the designated extracurricular activities in grades 6 – 12, students driving and/or parking on school property and students that choose to opt-in to the program.
4. The sanctions of this policy relate solely to limiting the opportunity of any student in violation of the random drug testing policy to participate in the designated activities and/or to park on school property. However, this policy shall not be deemed to insulate students from disciplinary action based on information acquired independently of the testing program that supports a student's violation of any other policy adopted by the Henderson County Board of Education, the student code of acceptable behavior and discipline, and/or school handbooks relating student's being in the possession of, using, providing, or under the influence of illegal substances or alcohol while on school property or at a school activity (home or away).

The Committee may consist of the school Principals, Head Coaches of the athletic teams, designated sponsors of extracurricular activities, Athletic Director, Title IV Coordinator, School Health Coordinator, Counselor, Superintendent, and/or Board Members.

In addition, the Committee shall review and evaluate the effectiveness of the drug testing policy on an annual basis. The evaluation shall include, but not be limited to, the effectiveness of the comprehensive educational and counseling program, substance testing program, procedural safeguards, and the list of drug substances tested. The Committee shall not have access to any of the test results. The Committee's purpose is limited to procedures and evaluation of the policy.

Any participant who tests positive will be required to provide a negative drug test, at his/her own expense, before regaining eligibility or reinstatement of parking privileges. The participant must provide a negative drug test, at his/her own expense, before regaining eligibility to participate in activities or reinstatement of parking privileges. If a participant does not comply, he/she will be suspended from any and all participation in any and all activities for the remainder of the season and/or parking privileges shall be revoked until such time as a negative test result is provided.

Students “Opting In” – Parents with students in grades 6-12 who participate in the drug-testing program voluntarily, but do not participate in any activities that are subject to this drug-testing policy and test positive, will be notified of such positive test, but the student will not be penalized through this policy.

RETEST AFTER SUSPENSION

In the case of retesting a student suspended for marijuana, a lower level of the substance might continue to be evident for up to ninety (90) days because of the extended length of time the substance stays in the body. In this situation the student will be allowed to participate in designated extracurricular activities once he/she completes the required suspension. If the marijuana level stays the same or increases on the additional tests it will be treated as a second positive test. It will also be considered a second positive if any level is detected after ninety (90) days.

REFUSAL TO SUBMIT TO DRUG USE TEST

If a participant refuses to submit to a drug test authorized under this policy, the participant will be considered to have had a positive test and will receive the restrictions according to the offense. Any student who has a positive initial test and refuses to complete the required paperwork for a confirmation test will be treated as a refusal to submit to testing and be subject to the restrictions/suspension imposed for the next level offense.

SELF-REPORTING

A student who has never tested positive under this policy shall have the option to voluntarily “self-report” the use of an illegal drug/alcohol. Under this self-reporting clause, the student must self-report to the principal prior to being selected in a random draw. Any student who self-reports a 1st offense shall have a five (5) school day suspension from all contests and student drivers shall have their parking permit suspended for five (5) school days. The student must also produce a negative test at his/her own expense within thirty (30) days. Students cannot self-report if they have already tested positive as a 1st offense.
