

CDIP Goals
Graduation Rate

Goal - Collaborate to increase our graduation rate from 82.4% to 89.2% by 5/26/17 as measured by the School Report Card Next Generation Learners Data.

<i>Activity</i>	<i>Update</i>	<i>What's Next</i>
Student Assistance Team/ABRI	The student assistance meets monthly to target at risk students and offer assistance such as mentoring, behavioral supports, and counseling. The group looks to eliminate barriers to learning for these students.	Progress monitoring is currently occurring for students that have been identified as needing assistance.
DaytonA, Credit Recovery, In-School Detention	All three of these programs are currently in place. Over 75 credits have been earned in Credit Recovery/DaytonA this year. The students in these programs are monitored during the SAT meetings.	Next steps include determining the effectiveness of these three programs on the overall effectiveness of the school.
School Based Health Center	The School Based Health Center is open on Tuesday's and Thursday's at LES. So far this school year, the center has had about 900 visits from our students.	Continue providing the School Based Health Center to our students.
Joint SBDM/Board Meeting	This meeting occurs twice a year.	Continue to evaluate and determine the content and focus of these bi-annual meetings.
