Open Up Resources Curriculum & Professional Services

PROFESSIONAL LEARNING PHILOSOPHY

Open Up Resources offers ongoing professional development to school systems implementing its curricula. Our PD sessions fall along a continuum of services, meeting teachers where they are in the development of their professional practice; this scaffolded approach to professional learning establishes and builds on educators' prior knowledge. We support teachers making the important shift to an inquiry-based instructional model by building their capacity while ensuring success leveraging our curriculum to improve student outcomes.

ILLUSTRATIVE MATHEMATICS (IM)

Illustrative Mathematics (IM) offers professional development trainings for math coaches and teachers to help teacher succeed and students achieve. Each professional development is delivered by an Illustrative Mathematics certified facilitator.

Guiding Principles for Implementation & Unit Launches

During the first one-day professional development session, grades 6 - 8, teachers will gain an overall understanding of the curriculum, assessments, and structure of the math program. Teachers will explore the 5 Practices teaching framework; how it is used in the curriculum to support teacher planning; and how it used to support student understanding and discourse. The second day includes opportunities to define and discuss creating a safe learning environment where student thinking is made explicit. The routines identified in this PD support the development of such an environment and are an integral component of the curriculum. On the third day, coaches will explore the unit launches. The unit launches enable coaches to guide the implementation of the units. Coaches will develop an understanding of: the big ideas of the unit; what students will need to know and be able to do to make sense of the unit; and key models and strategies used to support the development of conceptual understanding that leads students to fluency over time.

IM Virtual Math Coach

This service provides teachers and math coaches with continuous access to highly qualified math professionals. It is designed to support K-12 teachers and math coaches with their math and instructional based questions via phone, email, and chat.
