In the digital video area, students produce videos for different purposes, like documentaries, features, psa's, etc. Schools are allowed to enter two per category each year and they are judged online in first round judging to determine finalists. The finalists are then judged again and the actual winning videos in each category are announced at the STLP State Conference. To have your video declared a finalist is a huge honor in its own because there were hundreds of entries from schools all over the state!
