

**Curriculum, Instruction, and Assessment  
Board Agenda  
Wednesday, June 21, 2017**

**PROFESSIONAL DEVELOPMENT**

- All primary teachers are coming in over the summer to plan the NGSS science standards. 4 – 12 ELA and Math teachers will be coming in to plan and create assessments. HS Science, Social Studies, Math and ELA will be coming in on a day over the summer to plan instruction and assessments.
- We are in the middle of planning the August 14 professional learning day. Some of the topics include: Stemsopes Training and PBIS training. Other topics will be determined based upon the CSIP/CDIP and Schools PL Needs Assessment.
- We will be having a Junior Great Books Training on July 31 and August 1 at our board office. We will be having 10 – 15 teachers attend the training.

**ASSESSMENT**

- Schools are currently working on their Assessment Calendars for the 2017-2018 school year.

**PROGRAM REVIEW**

- Although Program Reviews are not a part of our accountability, the program reviews will be submitted for each school.

**TEACHER EVALUATION**

- The Evaluation Plan will be reviewed at the July meeting once new principals are in place. The plan does not need to be submitted to KDE for approval this year since we are adopting the same plan as last year. One change to the Evaluation Plan will be a reduction of one “mini” observation for non-tenured teachers that are not going through KTIP. These teachers will still receive one “mini” observation, one “full” observation, and one peer observation throughout the school year.

**REPORTS**

- The Gifted/Talented Report has been completed and submitted, thanks to the help of Mr. Long.
- We are still awaiting the Title I allocation. Once we receive that allocation, the report will be completed.
