## SafeSchools Training

### The #1 Staff Training System for Schools

SafeSchools Training is the leading web-based staff training and compliance management system specifically designed for school employees. **Voted one of the Top 100 products in education, 7 years in a row**, thousands of districts, including 32 of the Top 100 largest in the U.S., use our program to simplify their staff training.

SafeSchools Training's comprehensive library of 100% school-focused courses matched with a state of the art compliance management system make it easy to **deliver and document training and policy acceptance for every employee** in your district.

### 100% School-Focused Training

Choosing a training provider is **one of the best investments you can make** in your school's safety. That's why our courses are **100% school-focused** and written by leading K-12 experts, so you can trust that our content is accurate and relevant in a school setting. Our comprehensive Course Library includes hundreds of courses covering the following categories:

*Emergency Management*

*Human Resources*

*Security*

*Employment Practices*

*Information Technology*

*Social & Behavioral*

*Environmental*

*Nutrition Services*

*Special Education*

*Health*

*School Bus Safety*

*Transportation*

We also have Spanish versions for many of our courses and are publishing more and more job-specific and state-specific courses, too.

You can assign our expert-authored courses, or **build your own district-specific courses and policies in our training system**, and assign them to staff. And, every completion is tracked automatically so you have **one seamless solution** for all your training needs.

### Easy to Administer and Track Compliance

SafeSchools Training's revolutionary Compliance Management System includes an array of proprietary administrative features that automate safety and compliance tasks for busy school administrators. This includes electronic policy delivery tracking, documentation of group training, and a variety of reports and dashboards to keep all relevant compliance data at your fingertips.

**Districts that have implemented the SafeSchools Training System well have enjoyed a 50% reduction in workers' comp claims, saving hundreds of thousands of dollars a year!**

## Keeping Students and Staff Safe at School

We're proudly serving these districts and thousands more who've made us their trusted school safety partner of choice. We look forward to working with Livingston County Schools, too.

## Automated Features Make Administration Easy

Your training system should make life easier, not harder. That's why we've automated many of the features in SafeSchools Training so administration is fast and easy. Your system practically runs itself – so you don't have to!

### Automatic Tracking of Course Completions

The system automatically tracks and documents course completions and our reports make it easy to see who has or has not completed their assigned training.

### Automatic Tracking of District Specific Policies and Courses

SafeSchools Training's "Policy Course" and "Course Creator" features allow you to upload and deliver district-specific policies and courses for online review and acceptance.

### Automatic Employee Training Plan

Training Plan creation is simple and your designated Account Manager will guide you through the process. Once your assignments are selected, they will be automatically deployed to the designated employees.

### Automatic New Hire Training Plan

Access a separate Training Plan, customized for new employees, and schedule it to run automatically on an annual or multi-year basis.

### Automatic Email Notification

The system automatically notifies staff of their training assignments and sends reminders for outstanding assignments too.

### Automatic Progress Reports by Email

Based on your schedule, the system automatically sends regular progress reports to Managers and Department Heads by email.

### Automatic Archiving of Historical Reports

The system automatically archives reports that can be accessed at a later date.

**By automating your staff training and policy acceptance online, SafeSchools Training increases your training efficiency and makes compliance management a breeze. And, as an added bonus, your employees will love the flexibility that online training provides.**

## The Proven ROI of SafeSchools Training

Implementing the SafeSchools Training system in your district can save time and money. SafeSchools Training is proven to reduce workers' comp claims, property and liability costs, overtime expenses, and more. The following analysis shows a breakdown of your projected savings, even after the cost of your SafeSchools Training subscription is deducted!

## SafeSchools Accident Tracking *Accident and Injury Reporting System*

SafeSchools Accident Tracking is our online accident reporting and tracking system that lets you **record, track and investigate accidents and injuries anywhere on your campus**, through any web-enabled device.

Now you can conveniently use **one system to manage injuries and accidents** for:

- Employees
- Students
- Student-athletes
- Visitors

**SafeSchools Accident Tracking helps you save valuable time by automating workflows:**

- Automatically create **district, state, and federal (OSHA 300)** reports.
- **Employees can self-populate** key information for you.
- **Supervisors are notified and reminded** to review and submit reports.

Plus, a series of administrative dashboards and reports deliver key **metrics for easy trend analysis** so you can monitor where and when your highest number of injuries are occurring and take preventative measures.

Your subscription to SafeSchools Accident Tracking includes these services:

- Hosting and maintenance of your district's custom system on our servers.
- Initial set-up and training.
- Unlimited number of administrators.

## SafeSchools SDS

### SDS & Chemical Management System

SafeSchools SDS is our online SDS and chemical management system that helps your district **easily comply with OSHA Standard 1910.1200(g)**, which states that employers must have a readily accessible safety data sheet for all hazardous chemicals.

The system allows your team to easily create virtual SDS binders for your district that can be accessed from any web-enabled computer.

You can **organize your chemical inventory and binders** by work area and print out your virtual binders as neatly organized physical binders.

And, you can also easily print secondary container labels that outline important hazard warnings specific to the contents.

Use our **location fliers with QR codes** that can be quickly scanned to identify all the chemicals in a certain area.

A powerful search tool lets you access a specific SDS in the event of an emergency. And, because our system is web-based, it can be **accessed from any computer or web-enabled device**. Having remote access to your chemical inventory creates an added safety net.

Our system is compliant with the **Globally Harmonized System of Classification and Labeling of Chemicals (GHS)** and includes a wide variety of Safety Data Sheets for chemicals commonly found in schools.

Protect your school community with a **well-organized and easily accessible** SDS system.

*"Having remote access to our SDSs through our SafeSchools SDS system helped us save the life of a student who had ingested a hazardous chemical"*

## SafeSchools Alert Bullying/Incident Reporting System

Recent education statistics show:

- **Every 7 minutes** a child is bullied at school.
- **1 in 3 teens** report being bullied and 1 in 2 students report being cyberbullied.
- **160,000 children miss school every day** due to fear of attack or intimidation.
- **19,000 bullied children** attempt suicide every year and sadly, many are successful.
- **57% of students** would not report an incident if they could not do it anonymously.

The **consequences of bullying have never been higher for districts**. Parents of bullied children are now seeking legal restitution, often resulting in costly financial settlements.

That's why we developed **SafeSchools Alert**, our **online bullying/incident reporting system** that allows students, staff, and parents to confidentially report safety concerns, including bullying, harassment, and intimidation to your administration 24/7/365. Receive valuable tips, 4 convenient ways:

1. **Phone**
2. **Text Message**
3. **Email**
4. **Website**

Every tip is immediately logged in your custom Alert system as a ticket, and an email is automatically generated and sent to your designated staff members. Each ticket has a Date and Time stamp and provides the basic information that your team needs to begin an incident or threat investigation.

SafeSchools Alert includes a state-of-the-art management system that **automates many of the steps involved in tip resolution**, which can lighten your workload. Administrators can easily **track, investigate, and resolve incidents**, giving you the tools and data you need to respond in a timely and efficient manner. SafeSchools Alert will help you stay connected to your entire school community so you can prevent incidents before they occur.

*"SafeSchools Alert allows us to respond immediately to bullying, and helps us provide a safe environment for our students."*
