REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Administrative Regulation Number: 702 KAR 7:065

Contact Person: Kevin Brown

(1) Provide a brief summary of:

(a) What this administrative regulation does: KRS 156.070 requires the Kentucky Board of Education (KBE) to manage and control the common schools, including interscholastic athletics in the schools, and authorizes the KBE to designate an agency to manage athletics. This regulation designates the Kentucky High School Athletic Association (KHSAA) as the agent to manage high school and middle school interscholastic athletics, and incorporates by reference the bylaws, procedures and rules governing interscholastic sports.

(b) The necessity of this administrative regulation: This regulation is necessary to designate the agency to provide the day-to-day management activities of interscholastic athletics in Kentucky;

to set forth the financial, planning and review processes governing the agent; and to incorporate by reference the bylaws, procedures and rules of the agency.

(c) How this administrative regulation conforms to the content of the authorizing statutes: The regulation designates the agency to manage interscholastic athletics, as authorized by the authorizing statute, and outlines the conditions under which this authority is granted.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: It designates the KHSAA as the agent to manage interscholastic athletics in the schools and districts at the high school and middle school levels, and publishes changes in bylaws, procedures and rules for affected schools and districts.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: These amendments make changes to the documents incorporated by reference, including the constitution to clarify the basis upon when a director may be removed, how a director may be excused from attendance at required meetings, and the eligibility to be elected as a director. Changes were also made to the transfer bylaws that prevent member schools from improperly and unduly influencing students to transfer to their school for athletic reasons. Additional changes were made to require a student be financially current at school regarding financial aid. Finally, changes were made to the bylaws that allow schools to play non-member schools from other states, allow students to attend additional college exposure events, and allow for more participation opportunities at the non-varsity level under certain circumstances. These changes were all adopted by the KHSAA Delegate Assembly. Additional changes to other materials were made to incorporate these aforementioned changes in the bylaws.

(b) The necessity of the amendment to this administrative regulation: Pursuant to the KHSAA Constitution, which is incorporated by reference in this regulation, the members are required to have an annual meeting to discuss and recommend any needed changes to the Constitution and Bylaws. While they are not required to make changes to the Constitution and Bylaws, changes must be made through this process. This amendment incorporates changes approved at the annual meeting of the Delegate Assembly. This amendment also is necessary to designate the KHSAA as the agent to manage interscholastic athletics at the middle school level.

(c) How the amendment conforms to the content of the authorizing statutes: The statute authorizes the KBE to designate an agency to manage interscholastic athletics in the common schools. The regulation designates the KHSAA as that agent at both the high school and middle school levels, and incorporates by reference the KHSAA Handbook, which consists of the KHSAA Constitution, Bylaws, Due Process Procedure, and Board of Control Policies to provide rules and guidance to the member schools and districts governing sporting events. The amendments in the Bylaws are made annually, according to the process outlined in the Constitution, and reflect input given by member schools and districts on changes that need to be made to provide a more sound structure of governance.

(d) How the amendment will assist in the effective administration of the statutes: See (c) above.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: 174 School Districts

(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment: There will be little impact because of the nature of the changes to the regulation. There are requirements that continue to be placed on schools and coaching personnel, however the training required to meet these requirements will be provided at no costs to the schools or the coaching personnel.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: Minimal

(b) On a continuing basis: None

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: KHSAA is funded through membership fees and dues, as well as from gate receipts from the various state championships.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: None

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: None

(9) TIERING: Is tiering applied? (Explain why tiering was or was not used) Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all school districts.
