

Lincoln Elementary School

2017 – 2018

With our goal to offer a variety of afterschool clubs in order to reach all of students to offer them with afterschool learning and socializing opportunities, we would like to add the below extra-curricular activities for this upcoming school year:

1. Gardening Club – We would like to begin a gardening club at LES for this upcoming school year. We have been in contact with the Dayton Community Garden organizer and he is excited to assist with this new club. We are still working on details of implementing the different session focuses, age groups, etc. but we are excited to implement this new club. (2 LES staff members have been secured to serve as the sponsors of this club - \$1000)
2. STLP (Student Technology Leadership Program) – We would like to start STLP up again at LES. This club will allow students to use project-based learning principles to empower student learning through the use of technology to solve school and community needs. The club will include students in grades 3 – 6 and will meet afterschool hours. (2 staff members have been secured to serve as the sponsors of this club - \$1000)
3. Special Olympics – To begin our work with the Special Olympics organization we will write an initial grant in August 2017, receive notification in September 2017 of receipt of the grant, and begin implementing an 8-10 week program geared toward ages 2 – 7 beginning in the fall and/or spring. The focus will be of this program will basic exercise and movement skills. We will need one teacher/sponsor along with volunteers to run this program. (\$500 stipend)
4. Chess – We would like to continue to our LES Chess Club even with the departure of Mr. Long who is unavailable to serve as this club sponsor (He did this club as part of his annual salary.) We would like for Mr. Tyler Moberry to continue his involvement and serve as this club sponsor. (\$500 stipend)

Existing/Continuing LES Clubs:

- ✓ Student Council
