

Dayton Independent Schools
Lincoln Elementary School Instructional Technology
Board Request – September 27, 2017

The replacement of the teacher desktops with laptops will provide the teachers flexibility to be mobile. The teachers will need the assistance of a docking station to provide connectivity to the interactive board and projector as the laptop does not have any analog projector connections. The special education and preschool teachers were provided a laptop at the beginning of the school year. The breakdown is as follows:

Device Breakdown

25 instructional classrooms will receive the laptop replacement and docking station

3 administrators will receive the laptop replacement and docking station

1 school nurse will receive the laptop replacement

1 family resource will receive the laptop replacement

Two shared resource rooms will receive a docking station. Teachers can utilize the smartboard in those rooms with this docking station.

Cost breakdown

Laptop computer with 3 years of accidental coverage is: \$1,104.82

Docking station cost is: \$152.99

Docking station adapter to projector: \$7.99

Laptop total cost: \$33,144.60

Dock station total cost: \$4,589.70

Adapter total cost: \$223.72

Projected cost: \$37,958.02
