Core Subjects to be addressed Science

On a separate piece of paper include the following:

Summary of proposal and learning objectives: Be specific in linking agriculture to core subjects through the Mini-Grant. Explain how you will distinguish the activity from regular, ongoing instruction.

Budget: Please include a detailed breakdown of expenses for supplies, transportation, etc.

\$7 per child for Bernheim class
approx \$8 per child for bus
\$15 x 23 = \$345
Amount over grant covered by parents.

Each recipient will be responsible for giving a report to Spencer County Farm Bureau upon the successful completion of their project.

Farm Bureau Mini-Grant Proposal 2017:

Our kindergarten will take a field trip to Bernheim Forest in the spring. They will participate in a Guided Habitat Learning Experience, encounter real-life animals and plants, make observations, and have hands-on experiences in the Nature Center. They will do the "I Spy Trail" to look for specific nature items and plants.

Before the trip, we will read and do research about habitats and after the trip we will write about what we learned. Even though our students live "in the country", many of them don't get these outdoor experiences often enough.

Thanks for giving me the grant last year and since it was so close to the end of the year, I didn't get a chance to do a report---but it was fantastic! The kids really enjoyed learning outside in nature and the guided walk was informative.

Thanks for your consideration for this year!

Susan Tappan
