

October 25, 2017

Facilities, Transportation, and Newport Regional School Report

Transportation:

- All buses are operating at this time.
- Resignation of Joe Groat as bus driver. Position has been posted.
- All maintenance men will be driving or monitoring from October 31st on until a new driver can be found. We are contacting districts to see if someone who is part time for them is seeking a full time driver position that we could recruit.
- We are also looking into the situation where we do not have enough drivers and having to have someone come back and run a second late route to get students home.
- Jeep has been recovered. It had a slightly different color pattern upon its return. Mr. Turner is handling the insurance aspect.

Facilities:

- HVAC airflow balancing will be completed either after school hours or on weekends. Should finalize later this week.
- Front entrance has been completed. Once playground has been inspected it will be opened for Head Start.
- Blinds installed at NIS. All outside rooms should now have them.

Newport Regional School

- Interviewing math interventionist for NRS. Will work at NRS on Tuesday and Thursday and will be available to sub throughout the district on Monday, Wednesday and Friday.
- Student numbers are remaining around 20 – 24 per day so we are not seeing the fluctuation we had last year at this point.
