

Memorandum of Understanding

Parties: New Beginning Family Services (NBFS)

And

Boone County Schools

The following is a memorandum of understanding to outline the roles and responsibilities of each party in the provision of on-site therapeutic services. NBFS is a licensed private child placing (PCP) agency and a behavioral health services provider (BHSO). NBFS is contracted with the state of Kentucky to assist children in foster/adoption care and individuals who request therapeutic services. The above services will be at no cost to Boone County Schools as our hope is to have each party collaborate to better suit the child's treatment and well-being.

New Beginnings Family Services agrees to:

- Provide qualified professionals to work alongside Boone County Staff to assist NBFS foster children and/or BHSO clients in reaching treatment goals.
- Provide Boone County Schools with therapeutic resources in hopes of strengthening the NBFS client, family, school and community.
- Provide paperwork and program information for all relevant parties.
- Collaborate with school personnel to ensure effective service provision.

Boone County Schools agree to:

- Refer appropriate children to NBFS therapeutic services to determine eligibility.
- Provide space on site at designated school during school time, and allow referred students to participate.
- Share appropriate information on students with signed release of information forms.
- Assist in distributing and collecting necessary paperwork, permission forms and confidentiality statements.
- Collaborate with NBFS to ensure effective service provision.

This agreement is effective on date of signature and ongoing, but may be cancelled with 30 days written notice by either party.
