Dr. Henry Webb, Superintendent of Schools

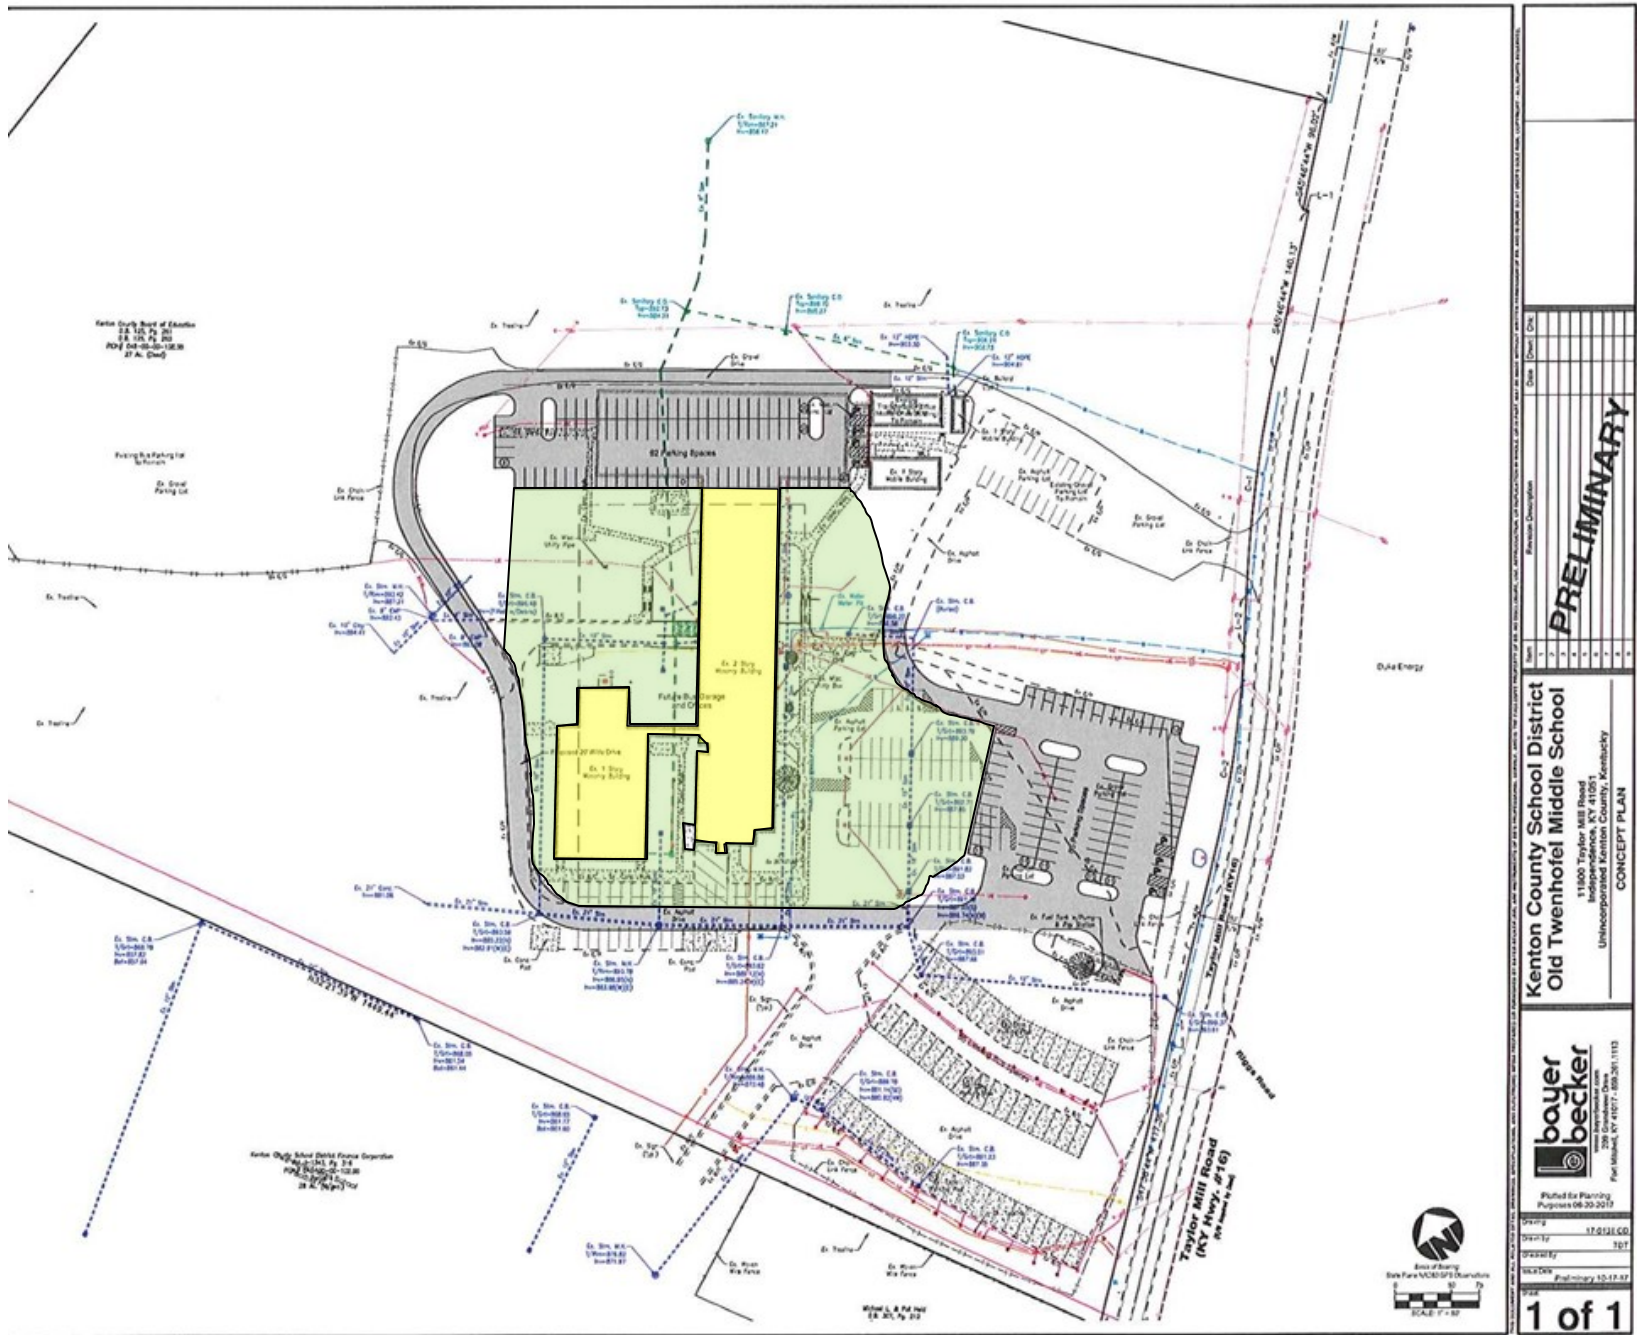

Former Twenhofel Demolition & Site Development

The scope of work associated with the first phase of construction for the future transportation and maintenance facility includes the removal of all environmental materials and complete demolition of the former school facility. The site will be graded and two new transportation parking lots and LED site lighting will be installed. The new lots will establish appropriate staff parking connected to the existing bus parking lots and driving lanes will be established to provide circulation around the future construction of a garage facility. The existing utilities feeding the former school building and current transportation operations will be re-fed before the facility is demolished.

The site plan prepared by Bayer Becker Engineers, reflects the footprint of the original school and also site development plans for the construction of two new parking lots. The two new lots are strategically placed to serve the existing bus parking areas as well as the temporary administrative transportation office facilities located in the temporary mobile buildings.

Kenton County Board of Education

Board Members: Carl Wicklund, Chairperson Karen L. Collins, Vice Chairperson Joshua Crabtree, Esq. Carla Egan Jessica Jehn
