Our overall mission is to connect people to our state parks, but our focus and passion can be narrowed down to a very specific task – to help children fall in love with Mother Nature and all she has to offer. We do that by connecting them to our Kentucky State Parks through educational programs in their schools.

With this as our primary initiative, the goal is to provide transportation and program support to schools, increasing the number of K-12 students who are able to experience an authentic learning environment at our Kentucky State Parks and Historic Sites.

Once in the parks, a world of learning begins as young people discover their natural, cultural and historical heritage; participate in volunteer and service-learning activities; enjoy recreational opportunities and most importantly, begin a lifelong relationship with our Kentucky State Parks.

GRANTS ARE AWARDED BASED ON THE FOLLOWING:

- Educational goals and instruction plan
