

Tips for Sub-Skill Report

- Accessible from a link in the MAP for Primary Grades Class Report.
- Report results are measured by the percentage of questions answered correctly.
- Select and sort sub-skills to group students alphabetically by low, medium, and high performance levels as a group or individual groups by performance levels.
- See which students need help with specific skills and measure progress.

Projected Proficiency Summary Report

Description

Shows aggregated projected proficiency data so you can determine how a group of students is projected to perform on separate state and college readiness tests.

Applicable Tests

MAP Growth and MAP Growth K-2.

Audience

Superintendent,
 curriculum specialist,
 instructional coach, principal

Required Roles

Administrator or Assessment Coordinator

Date Limits

All years prior, for tests completed within your test window range (set under Manage Terms). Also, the Test Window Complete check box must be selected.

About Proficiency Projections

- There are no projections available from summer test results.
- Which state and college projections appear depends on the state alignment that your district selected during MAP implementation.
- If your state does not have a specific NWEA linking study, generic projections developed by NWEA appear on the report.
- Depending on the state, projections may be limited to certain subjects (typically reading and math) and certain grades (typically 2 through 8).
 - College readiness projections are limited to grades 5 through 9.
- ACT College Readiness—The "On Track 24" projection is the highest benchmark. It is based on a more stringent ACT cut score of 24, instead of 22. For details, open the linking study.
