

## Annual Nutrition Director's Report – 2017-2018

The district is in full compliance with the National School Breakfast and National School Lunch programs. Food and beverages are only available during the school day in the designated meal areas (for breakfast, there are areas set up in the middle school hallway and the concourse, in addition to the cafeteria; for lunch, all meals and snacks are available in the cafeteria), and all food and beverages sold are fully compliant with the NSLP, NSBP, and smart snack requirements. Recommendations for improving the school nutrition environment include collaboration between the teaching and nutrition staff to provide nutrition education in the classroom, tie-in activities that will get the students excited about making healthier nutrition choices, and annual taste test opportunities for students to try new (nutritious) foods.

The first attached report provides the list of food items with nutritional details which are available during the meal services. The second attached report is a snapshot of the district assessment results through the Alliance for a Healthier Generation website.

### Percentage of Items Fully Met on Current Assessments

This graph compares the total number of assessment items fully implemented (marked as a "3") on the most recent SHI assessment by module or topic to the total number of assessment items that **could be fully implemented** for all schools with a completed assessment by module or topic within the district, state or nation. Note that a school does not need to be fully meeting in all assessment items to be eligible for a Healthy Schools Award. Nutrition and Physical Activity topics refer to the collective assessment questions pertaining to the specific topics.

# Action Plan Item Selection Rate

This graph compares the total number of action items selected and in progress by module or topic to the total number of action items that could be selected for all schools with an action plan by module or topic within the district, state, or nation.

This table highlights the percentage of schools that are currently meeting the eligibility criteria for one of our national awards based on the schools' most recently completed SHI assessments. It does not take into account whether a school has applied for or been awarded a National Healthy Schools Award.

## Module Summaries (All HSP Schools, n = 1)

Note that a school does not need to be fully meeting in all assessment items to be eligible for a Healthy Schools Award.
