Dear Bullitt County Public School Board Member,

Attached for your review is a summary services and programs the Bullitt County FRYSCs have provided during the 2016-17 school year. The Master Contract between Bullitt County Public Schools and the Division of Family Resource/Youth Service Centers states an annual update of the program will be given to the District Board of Education. Please note the "totals" column is inflated on the FRYSC Group Report due to a glitch in the Infinite Campus system at the end of the fiscal year.

Bullitt County Public Schools has six family resource centers serving twelve elementary schools, and four youth service centers serving two high schools and four middle schools. Please see the attached for contact information. Collectively, the BCPS Coordinators have written and received grants for our students that total more than \$50,000. These grants have helped fund kindergarten readiness programs, STEM field trips, a job skills program and summer programming as well as purchasing books and other items needed for learning.

Currently, all coordinators are concerned with expected budget cuts to the FRYSC program. Until the State legislature sets the 2018-2020 budget it is uncertain how deep the cuts will be, and what impact the cuts will have on services to BCPS students.

If you have any questions please do not hesitate to contact me at 869-8111.
