Lesson Plan:

The students will be performing with students from every middle school in the State in preparation for the WKU Honor Band Concert. This will give the students a chance to make connections to the community around them outside of the school itself. This will also be a performance opportunity for these students in which they will be covering multiple standards on the national level. They will make observations and reflections on this performance during the rehearsal that day.

Learning Target: I can: develop and refine artistic work for presentation.

National Standards:

Anchor #5: Develop and refine artistic work for presentation. In preparation for this trip the students have been rehearsing these pieces to get them ready to perform.

Anchor #6: Convey meaning through the presentation of artistic work. The students will discuss their performance afterwards and we will talk about how their performance conveyed a story or meaning.

Anchor #10: Synthesize and relate knowledge and personal experiences to make art. Students will be making new connections with other people in the community broadening their educational and personal experiences.
