RE: Maryville Elementary Addition/Renovation BG 15-106

I am requesting the Board's approval to accept the attached proposal from Caliber Construction. The proposal is for cutting material between John Harper and the geo field at Maryville Elementary in addition to adding 4" of top soil. During construction it was discovered that a lot of trash has been dumped there over the past years. This request will clean up the area as well as a more revealing view of the front of the school from John Harper. The cost of this proposal is \$16,000.00 which will be funded through construction contingencies.

Feel free to contact me should you have additional questions at 502-921-3659.
