Re: Use of District & Commercial Buses

I request retroactive approval to allow the use of district buses to transport staff members who wish to attend the legislative session on Friday, April 13, 2018. I deemed it an educational purpose as the teachers were advocating for resources - on their own time - to help educate our community's children. There was no cost to the district for the buses; the Bullitt County Education Association fully reimbursed the cost of the driver and the bus expense.
