

# Early Childhood Video List Rationale

Johnson, Stephanie T

Wed 4/11/2018 11:14 AM

To: Humphrey, Shannon F <shannon.humphrey@jefferson.kyschools.us>;

The Early Childhood Department is devoted to the continuing education and refinement of instructional skills for all staff serving in the JCPS Early Childhood Program. The Early Childhood Department is in the process of developing a comprehensive list of videos and training presentations that can be used by school and center based administrators as well as Employee Relations to provide Early Childhood instructional staff with additional support and training. Classroom observations and classroom snapshot data, will be used by administrators when providing feedback and support to staff. Videos have built in assessment tools that will check for understanding. The creation of additional assessment tools is an on-going project and will be added to the list as they are completed. The most comprehensive set of videos are the Early Childhood Essentials. This collection of videos targets specifically, the Standards of Conduct as outline by the Office of Head Start.
