THE NATION'S REPORT CARD Trial Urban District Assessment (TUDA)

Reading and Math 2017 Results Grades 4 and 8

*Jefferson County Board of Education Briefings
May 8, 2018*

Key Takeaways

- Overall, JCPS held steady in Reading and Math at both grade levels from 2015 to 2017
- JCPS students in grade 4 Reading scored higher than Large City and the same as Large City for grade 8. While in Math grade 4 students are on par with Large City but significantly lower in grade 8.
- JCPS showed a need for improvement in closing the achievement gap among African American, Hispanic students and students on free/reduced price lunch.
- *“In the latest round of NAEP testing, the Jefferson County Public Schools held onto its previous gains and scored at national or big-city school averages in every grade-subject combination.”. “More encouraging, however, is the fact that the new superintendent is already making the reforms and improvements necessary to substantially boost student outcomes in the years to come. I am very optimistic about Jefferson County’s future.”*
-Michael Casserly, executive director of the Council of the Great City Schools

2017 TUDA Results

> Scored Higher than JCPS	x Scored the Same as JCPS	< Scored Lower than JCPS
---------------------------------	---------------------------------	--------------------------------

JCPS students in grade 4 Reading scored higher than Large City and the same as Large City for grade 8.

While in Math grade 4 students are on par with Large City but significantly lower in grade 8.

NEXT STEPS

- Work with the JCPS Teaching and Learning department to review NAEP results
- Collaborate across departments (DEP, ESL, ECE, etc.) to share resources to systematically target needs for specific populations
- Look for trends in student misconceptions to support and inform the work of teaching and learning
- Integrate the cognitive targets for reading and the levels of complexity for mathematics within the work of our district literacy numeracy backpack
- Use the NAEP released items and the item maps to support instructional planning
