Re: District Energy Program Mascot – Contest Winner

The district's Energy Watchdog, for the district energy program is a little dated, and was being confused out at our schools with the Watchdog Dad program. We conducted a district wide contest during February and March of this year to rebrand the program/mascot. Students across all schools, K-12 were eligible to submit their version of a new energy program mascot.

Students were provided with contest rules – including these key pieces: the mascot had to be energy related, have a positive message, and be the student's original work.

Tomi Toyama, a 5th grader at Overdale Elementary, is our contest winner. Tomi's mascot submission is actually a team – the Green Earth Group, made up of Firelight (a lightbulb lightning bug), Wire Guy (an electrical wire/plug), and Baby Green Earth. Tomi is also being presented with a \$100 gift card for winning the contest.

Our second place winner is Madison Nunn, a 6th grader at Zoneton Middle School, and our third place winner is Ma'Kayla Blishak, who is also a 6th grader at ZMS. These students are each receiving a \$25 gift card for their entries.

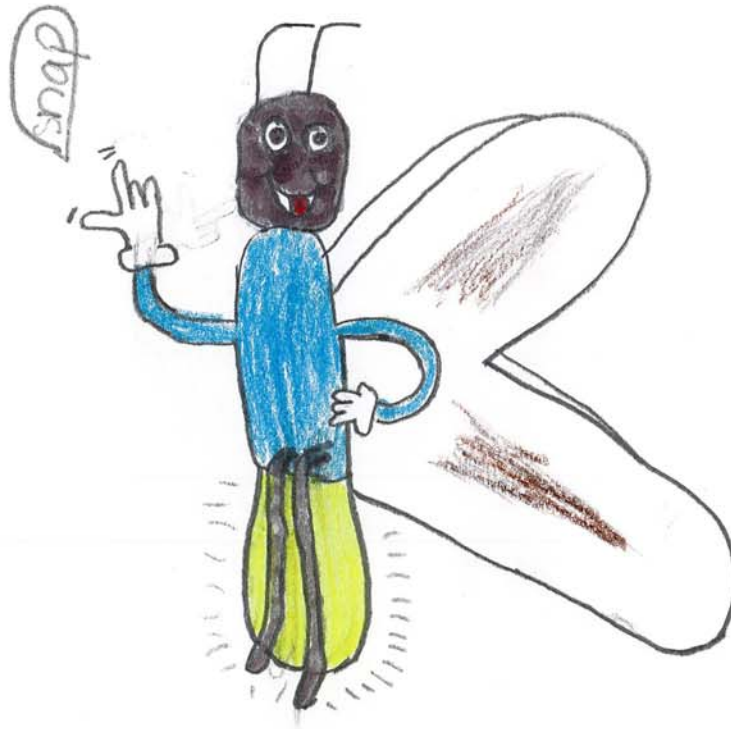

If you have any questions, please feel free to contact me.
