RE: Board Agenda Item – Building Modification – Old Mill Elementary

Presented for Board approval is a request from Mr. Les McIntosh to modify the wall separating rooms 51 and 53 at Old Mill Elementary.

Approving this request will allow the teachers to co-teach using a personalized learning approach to engage students. This opportunity provides the teachers with a larger learning area creating flexibility for small group instruction and teacher/student conferencing.

The masonry wall has been inspected and is not a load-bearing wall. There are four electrical outlets in the wall that will be modified. The demolition and repair work will be handled by the maintenance department. The anticipated costs for ancillary work associated with the project are approximately \$100.00. This will be covered by SBDM funds and will be at no additional cost to the district. The work will take place during the summer.

I recommend the Board approve the request from Mr. Les McIntosh to modify the wall separating rooms 51 and 53 at Old Mill Elementary.

RE: Request to Alter Space

DATE: May 6, 2018

On behalf of Old Mill Elementary School, I am requesting permission to alter the connecting wall between rooms 51 and 53 by removing a section of the concrete blocks to create a more open space for two teachers that co-teach. With our journey into personalized learning and co-teaching, this will open up a larger learning space so the two co-teachers can more properly supervise two classrooms of students while having the flexibility to do more flexible small group instruction and teacher/student conferencing.

Please contact me if you have questions. Thank you for your consideration.

**Mission: At Old Mill Academy, we are a community of learners.
We recognize, honor, and celebrate the leaders within us!**
