To: Mr. Greg Jones
City of Morehead
Morehead, KY 40351

Re: (Basketball Court Resurfacing) – City Park, Morehead, KY.

Hinkle Contracting Company, LLC is pleased to provide an estimate for performing the following described work at the above referenced location. Our price includes all labor, equipment, and material necessary to complete the work mentioned below.

Paving Area (Based on approximately 1,272 SY) – 108' X 106'

- Place a tack coat over entire area to prepare area for asphalt surface.
- Place and compact (CL2 0.38D PG64-22) Bituminous Asphalt Surface to a nominal thickness of 2.0" after compaction.

Lump Sum Price = \$ 16,550.00

Notes and Exclusions:

>Our quote is based on a section of the existing fence being removed to allow access for our equipment and trucks to enter and exit the court. Our quote is also based on the existing benches being removed prior to our work beginning.
>Our quote excludes any damage to the existing access area damaged with our equipment and trucks entering and exiting the court. (This dirt/grass area may require some regrading and or seed and straw.)
>Please be aware that it will be impossible to compact the new asphalt material along the existing chain link perimeter fence that remains in place. We also have some concerns about the weight of our equipment while placing the new asphalt surface. If the existing asphalt will not hold up our equipment during the placement of the new asphalt surface we will have to discuss our options at that point and how to cover any additional cost that may be associated with repairs.

If you have any questions, please feel free to give me a call.

Sincerely,

A handwritten signature in cursive script that reads "Brad Thompson".
