RE: EPES School Accounting Software Renewal

The District utilizes EPES School Accounting Software for recording activity in the School Activity Funds. It is time to renew the agreement with EPES for the upcoming school year. The Finance Department also has a license and can look at real time information to assist a school if there is an issue. The renewal cost is \$147 per school.

At this time, I ask for approval to renew the EPES Accounting Software for the School Activity Accounts.
