RE: Frontline Education—Electronic Timekeeping

Bullitt County Public Schools utilize Frontline Education as the electronic timekeeping system for the District. This system provides absence and substitute management as well as time and attendance for employees. The annual renewal for absence and substitute management is \$22,594.17; the annual renewal for time and attendance is \$20,009.00. At this time, I ask the renewal of the Frontline electronic timesheet system be approved.
