Percent of juniors & seniors taking a dual credit class while at LHS

100%

Students who received a laptop for their college classwork for the year

\$78,017

Collective future college savings (tuition + books) for Ludlow families

THANK YOU!

The students who participate in the Early College Program wish to thank Superintendent Borchers & The Ludlow Board of Education for their support. They are truly appreciative of their Early College experience.

Now that I've have jumped into the world of college, I am more confident about my future. I've learned that I am not only capable of attending college, but I can truly excel at it!

This Early College experience improved my time management and organizational skills. I learned new ways to study and how to use my time more effectively.

I am so grateful for the opportunity and privilege of taking these college classes. It has given me a head start in life! College is going to be hard for my family to afford, but you have made that a little easier.

I really enjoyed going through this program with my friends. I can't imagine going through my first year of college without anyone I knew. This was a great advantage because I was able to adjust to the course difficulty with friends that I could trust and rely on. We helped each other a lot and studied together all the time.

Without this program, I wouldn't be prepared for my years after high school. Before Gateway, I was stressing about college, and wondering if it was even a fit for me, but now I know I am fully capable of the college life. With this program, I can now say I'm prepared for my college career and can guarantee that I will achieve.

This program has made me better at managing my time and not doing things at the last minute. Completing work ahead of time relieved a lot of stress and helped me get better scores on tests and essays. It has made me an overall better student and ready to be a fulltime college student!
