RE: Board Agenda Item – Building Modification – Maryville Elementary

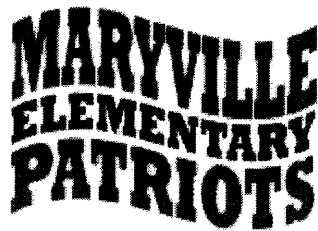

Presented for Board approval is a request from Mrs. Gayle Korfhage to remove a wall-mounted computer table in the Preschool room at Maryville Elementary.

Removing this computer table will provide more space for learning. Also, the table is much too tall for preschool and is not developmentally appropriate that preschool students would use technology in this fashion. The additional space will improve compliance with implementing state preschool regulations.

I recommend the Board approve the request from Mrs. Gayle Korfhage to remove a wall-mounted computer table in the Preschool room at Maryville Elementary.

Dear Mr. Mitchell,

I am requesting that you seek approval from the Board of Education to remove the computer table that is installed in the preschool classroom at Maryville Elementary School. The table is much too tall for preschool students and is not developmentally appropriate that preschool students would use technology in that way. The space is also needed to implement state preschool regulations.

Thank you,

A handwritten signature in cursive script that reads "Gayle Korfhage".

Gayle Korfhage
Interim Principal
