Dear School Official:

As the new school year gets started, our goal is to ensure that school officials, judges, and county attorneys have the knowledge, information, resources, and support from us to recommend defensive driving programs to those in the age range of 16 to 24 years of age.

Kentucky Safe Driver is dedicated to the safety of all drivers and particularly the youngest and most vulnerable. Automobile crashes are the leading cause of death for people in the United States under the age of 25. Approximately **29** die in an automobile accident everyday!

Statistics show that since the Alive at 25 classes started in 2004, Kentucky's death toll among drivers ages 16 to 19 has dropped 51 percent. We are encouraged about these statistics and our efforts over the past year has increased the Alive at 25 Program from being an approved Graduated Driver Licensing (GDL) Program for new drivers to becoming the main GDL Program in Kentucky.

The Alive at 25 Program is one way we can help protect teen drivers. The program explains common risks they will face and how to minimize those risks and what to do to be a better defensive driver. They will also learn coping techniques for dealing with speeding, distracted driving, impaired driving, and hazardous traffic conditions.

Although we hire Kentucky State Police troopers as instructors, this is not a KSP program but a Kentucky Safe Driver program. Kentucky Safe Driver was created by the Colorado State Patrol Foundation Fund in 2016.

In an age of there being so many things that affect our youth's lives, we would welcome the chance to work with your school in getting our message to your students about this life saving opportunity.

If you have any questions, please feel free to call me or e-mail at lori@kentuckysafedriver.org.

Sincerely,

Lori Hunsaker
Kentucky State Program Director
