RE: SOFTBALL RECONCILE

At the 2018 state softball tournament, the heat index became an issue on the second day of the tournament. With this extreme heat, staff made the decision to change the admission policy to allow fans to leave and re-enter the facility for the purchase of single day ticket. With making this change, the ticket sellers did have to switch the prices of the tickets they were selling. This led to an overage of funds in the reconcile due to them selling the \$10 single day ticket and the \$25 all-session pass from the same box. The reconcile is correct on the amount of money that was deposited to the bank for the 2018 tournament.
