RE: Southgate Public School – Renovations
BG #19-033 / REH #350-1217

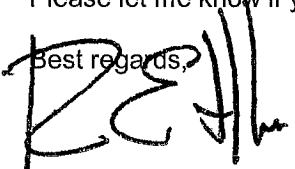

Dear Gary:

We are in receipt of your September 18, 2018 comments regarding the Schematic Design Documents for referenced Project and have the following responses in the same order as your letter:

- Item 1: This project is located above the 100 year flood plain.
- Item 2: KLH Engineers has confirmed all new utility connections will be shown on the final Bidding Documents, as applicable.
- Item 3: The current project estimate is within budget.
- Item 4: Your comments regarding efficient school design have been taken under consideration – the project is being designed to be as energy efficient as possible while staying with the budget.
- Item 5: KLH Engineers has confirmed there is no data cabling included in the project so the KETS Checklist is not applicable.
- Item 6: The accessible entrance is an exterior ramp to the door at the narrow connecting corridor between buildings.

Please let me know if you have any further comments.

Best regards,

Ehmet Hayes
