

TRIGG COUNTY HIGH SCHOOL FALL INTERSESSION**10.25.2018**

The intersession experience is a week long experience that provides the opportunity for the majority of our students and staff to participate in service-learning, work-based learning, or extended learning experiences beyond the walls of the classroom. We believe that these experiences provide students additional opportunities to pursue their passions, explore career interests, help others, and work towards mastery of standards and skills in their coursework at TCHS.
