1. Please describe any experience you have serving as a facilitator for other public school districts development of the District Facilities Plan.

Serving as Superintendent of the Somerset Independent School District I was the de facto facilitator for the Local Planning Committee. That was an expectation of the position I held.

2. Please describe any experience serving on a Local Planning Committee to develop a District Facilities Plan.

As referenced above I guided my school district through the Local Planning Committee/District Facilities Planning Process in the Spring of 2015. I directed the process from orientation to final submission to KDE for approval.

3. Please describe or list any professional experiences that would help with serving as a facilitator?

The following administrative capacities are some in which I've served that required the organization and application of resources and personnel to meet a stated goal: 1) School Board Member Trainer for KASA, October 9, 2018 I conducted an ethics and superintendent evaluation training for the Greenup County Schools Board of Education, 2) Facilitator for Washington County Schools for their March 13, 2018 Safety Forum, 3) I facilitated a reconfiguration effort of the Muhlenberg County Schools, December 2016 through May 2017. This experience included conducting assessments of operational and instructional systems, conducting research of reconfiguration options, conducting approximately 8 planning sessions with the district's Executive Planning Team (teachers, parents, and administrators), and recommended course of action.

4. Please describe any other qualifications.

My public education administrative experiences include all the relevant duties and responsibilities from servings as: 1) Superintendent of the Somerset Independent Schools, 2) Education Recovery Leader and Highly Skilled Educator, Kentucky Department of Education, 3) High School and Elementary Principal, Pulaski County Schools.

FEE CHARGED FOR SERVICES \$ 4200 (plus travel) for all customary and usual facilitation duties and services (and all specific needs of the district which both parties agree to) up to attendance at, and organization of six (6) Local Planning Committee sessions, public forums, work sessions, etc...as may be essential for the preparation of a District Facilities Plan. In the event more meeting/planning events are essential the district will be billed at a daily rate of \$850.00 per day (plus travel).
