Project

21st Century Room (Auxiliary Room Wall)

Date Submitted

11/15/18

Describe the project you are proposing:

We would like to add a wall similar to the one we did last year to divide the room. This would be a wall on the exterior of the 21st Century Room and will replace the retractable wall that currently provides no security. This will be adjacent to the cafeteria with one set of double doors. We have received \$15,000 worth of equipment for the 21st Century Program and the grant stipulates that it be locked up at all times.

Cost of Project: \$1500

RETURN THIS FORM TO THE DEPARTMENT OF FACILITIES AND
MAINTENANCE

Regardless of source of funds (booster organization, parent organizations, donations, etc.) all alterations must be approved.
