Subject: Tonight's board meeting.

Hey Mr. Hammond. I will not be able to make it to the board meeting tonight because I have a basketball game in Owen County. Here is my monthly review though,
Focus groups have started and seem to be doing very well. Focus groups are groups designed to improve scores in the area that you need it the most.
Students had there second Achieve test to test how there lexile level has improved since the beginning of the year. Should have statistics on how the program is affecting the students soon.
Many upperclassmen just took the ACT this past weekend.
Continues to be a boring month but boring in a good way. Still no fights, or major discipline issues that have caused any type of chaos in the school.
